WAR BREAKS OUT IN CAMP OF INDIANA DELEGATION AT CHICAGO

EFFORT TO UNSEAT 92 TAFT DELEGATES

"Liar" Shouts Capt. English When Indiana Case Is Challenged---Mayor Shank Willing to "Scrap" Mr. Record.

VOTE ON HADLEY'S MOTION LATE TODAY

Convention Hall, Chicago, June 19.—Stormy scenes in which hoots, jeers, groans and cheers blended in utter pandemonium on several occasions marked the three-hour debate today on the motion of Governor Hadley, of Missouri, to unseat 92 Taft delegates given places in the temporary convention roll by the republican national committee.

The Roosevelt fight to "expurgate" the list by the elimination of the delegates contested by Roosevelt started with the opening of the convention Argument was long and bitter upon both sides and it was frequently interrupted by wild confusion in the hall. It is certain that the vote upon the motion cannot be taken until late today.

Indiana Men Mix in It.

Indiana mixed strongly in the clashes today. Former Senator Hemenway attacked the members of the national committee who urged th eseating of the Roosevelt delegates and in the course of his remarks drew the fire of Flinn and the Pennsylvania delegation. Flinn was finally ordered by Chairman Root to take his seat.

When Mr. Record, of New Jersey, speaking for the Hadley motion, attacked the methods used inthe Indiana cases the storm in the Indiana delegation broke with tremendous fury.

"Liar," Shouts English.

Capt. English, of Indianapolis, leaped to his feet, shouting at the speaker. oHlton Dye, a Roosevelt delegate from Indiana, supported Record's charge and Captain English promptly called him a liar. The two men started for each other, but friends kept them apart.

From his seat upon the platform Mayor Shank, of Indianapolis, announced his willingness to "scrap" Mr. Record.

The uproar was so terrific that Chairman Root declared a recess until quiet could be restored.

May Call Out His Delegates.

That Roosevelt will order a withdrawal of his delegates from the convention if the credentials committee fails to unseat the protested eighty delegates included in the appeal submitted by Governor Hadley was the most discussed proposition around headquarters just before the convention opened for the second day.

On every hand it was agreed that this development was certain to follow approval of the national committee's action. It was also expressed as another certainty that Roosevelt could not take from the convention some of his pledged delegates.

Leads Floor Battle for Col. Roosevelt

HERBERT S. HADLEY.

Governor of Missouri, is chief in command of Roosevelt forces on convention floor and led fight to unset ninety-two Taft delegates.

Begin to File In.

The Coliseum was a sea of empty chairs at 9:30 o'clock, when the band, in its perch near the roof, struck the opening note of the morning concert. A file of policemen came in through a side door, stepping lively to the march time. The blue-coated guardians took their places across the front of the hall, where the line held back surging crowds yesterday, and delegates and spectators began to file in through the doors.

Before 9 o'clock the Wabash avenue doors of the convention hall were besieged by telegraph operators, messenger boys and newspaper employes, who were denied access. The tickets issued for Tuesday's session were rejected by the doorkeepers, and for a time it appeared that telegraph wires would lie idle in the basement.

Sergeant-at-Arms Stone finally produced 300 forgotten badges from his safe, and these were distributed in the crowd outside the annex door. There was a rush for them and it required the assistance of policemen to see that only authorized employes secured the coveted passes.

The air of nervousness that hung over the convention police and employes before the opening of the session yesterday was curiously absent today. No one knew then what to expect. Today the patrolmen chatted and laughed, secure in the belief that they could handle easily anything that might develop.

Lack of Excitement.

In the box reserved for special guests there were several early arrivals. At 10 o'clock, an hour before the time for opening the session, less than 200 spectators were in the hall, and but eight of the delegate seats were occupied. Although the convention program included the real struggle of the Roosevelt leaders to obtain control of the permanent roll of delegates, there was a noticeable lack of excitement or enthusiasm about the convention hall.

James D. Preston, in charge of the press section of the convention hall, came in with a big bundle of mail in his hand. "The Coliseum postmaster wanted me to help him get out the newspaper men's mail," he said. "It's all for one reporter, William Jennings Bryan."

Shake in Pugilistic Style.

Soon after Chairman Root arrived on the platform at 10:54 he was flanked on one side by Governor Hadley, the Roosevelt leader, and on the other by James E. Watson, of the Taft forces. As a preliminary to the day's expected hostilities all three shook hands "and retired to their corners."

Governor Hadley and Watson arranged for an equal division of the three hours' debate that was to be allowed on the Roosevelt proposition to substitute a roll containing ninety-two Roosevelt delegattes in place of ninety-two Taft followers seated by the national committee.

Before calling the convention to order, Chairman Root and the other officers of the convention posed for a series of photographs. This helped to delay matters several minutes beyond the scheduled hour—11 o'clock. At that time many delegate seats were still vacant.

In Earnest Conference.

Surrounding Governor Deneen's seat on the floor for fifteen minutes before the call to order were the Roosevelt leaders in earnest conversation. In the group were Senator Dixon, Governor Hadley, William Flinn and Governor Johnson, of California.

Another fifteen minutes passed before Chairman Root again took up his gavel and with emphatic blows on the table insisted upon quiet and order. Then pounding the table, Root announced:

"The exercises—I mean the business of this day—will be opened with prayer by the Rev. Joseph Stolz."

The delegates and alternates and every person in the galleries arose and stood during the invocation.

Rabbi Stoltz's Prayer.

The prayer of Rabbi Stoltz was as follows:

"O, Lord, who art the loving Father of all mankind, the just Ruler of the nations, the everlasting God whose counsel of righteousness and truth prevaileth over the waves of passion and

EVELYN NESBIT THAW IS THERE

But No Sign of Recognition Passes Between Couple.

READY TO TESTIFY

White Plains, N. Y., June 19.—Evelyn Nesbit Thaw appeared in court here today ready to take the stand to testify against her husband, Harry K. Thaw, who is fighting for his release from the Matteawan asylum for the criminal insane. She was heavily veiled and as she took her seat in the court room she gazed at Thaw, but no sign of recognition passed between them.

Dr. Allen McLane Hamilton, the alienist, was on the stand the major part of the morning session. He testified to having made several examinations of Thaw when he was confined in the Tombs in New York city. He summed up his examination by saying Thaw appeared "dazed and acted like a man suffering from dementia."

GRAND JURY TO PROBE FIRE.

Incendiarism Charged in Recent $40,000 Blaze at Rossville.

Frankfort, Ind., June 19.—The Clinton county grand jury was called in special session yesterday to investigate the disastrous fire at Rossville May 15. Since the $40,000 fire stories have been rife that the blaze was of incendiary origin. Insurance companies have refused to make settlement on policies until the investigation is completed by the grand jury.

PATROLMAN SHOT DOWN IN A RIOT

Striking Railroad Track Walkers in Outbreak at Cleveland.

PASSER-BY WOUNDED

Cleveland, Ohio, June 19.—Edward Parker, a patrolman, was killed, and Wm. Garlich, an express wagon driver, was badly wounded during a demonstration of 100 striking track workers employed on the Pennsylvania railroad at Claire avenue and East 26th street here today. Garlich is expected to recover.

The track workers struck last night and today endeavored to make a demonstration. The railroad company put twenty men to work in their places. A riot call was sent in and a squad of patrolmen answered.

The police were greeted by a shower of missiles. One hundred shots were fired before the police restored order and took seven of the rioters into custody. They opened fire, several of the strikers replying. Parker fell immediately. A stray bullet struck Garlich as he drove past.

TWO HORSES KILLED.

Two horses driven by Claude Dinius, son of J. N. Dinius, one mile and a half north of Roanoke, were struck by a westbound interurban freight car at 9:30 o'clock Tuesday morning and instantly killed. Young Dinius escaped injury. He was hauling tile on a mudboat at the time and states that the heavy load stuck on the track in front of the rapidly approaching car. When he saw the crash was imminent, he jumped.

HOURS OF STUBBORN FIGHT IN PROSPECT

Renomination of Taft, Roosevelt, a Third Man and Double Convention Loom as Four Big Possibilities.

ALL MAKING CLAIMS; GUESSERS AT SEA

Chicago, June 9.—The second day of the fifteenth national republican convention opened with ten hours of stubborn fighting ahead and the outcome of the contest for the presidential nomination no nearer that it was yesterday.

Four major possibilities loomed large in the foreground. These were the renomination of President Taft, the nomination of Col. Roosevelt, nomination of a third candidate and possibility of a second or double convention.

Scores of men could be found in the convention crowds who would back any one of these possibilities with hard cash. Taft, Roosevelt and third candidate partisans each claimed the strategic advantage as a result of yesterday's selection of United States Senator Elihu Root, of New York, as temporary chairman of the convention.

It was a wonderful opportunity for the political prophets, who wandered in this maze of chance in a condition of acute statistical intoxication.

The vote of 558 to 502 by which Senator Root was chosen temporary chairman over Gov. McGovern, of Wisconsin, was construed in so many ways by those armed with pad and pencil that the average mind became confused and finally rejected all of the forecasts.

Looked Like Certainty.

But one thing seemed sure and certain as the time for the reassembling of the delegates at 11 o'clock approached. And that was that Gov. Herbert S. Hadley, of Missouri, would take up the fight for the Roosevelt forces by renewing his motion to strike from the temporary roll of the convention as prepared by the national committee the names of 92 Taft delegates seated by the national committee in contested election cases and substitute those of the Roosevelt cause.

Then, it seemed equally certain, the Taft leaders would move to refer Gov. Hadley's "expurgated" list to the credentials committee and that on this motion there would be a roll call of all delegates individually.

All-Day Fight in Prospect.

Gov. Hadley, as floor leader of the Roosevelt contingent, arranged with former Representative James E. Watson, of Indiana, the Taft floor leader, for an hour and a half of debate by each side on the question. This, with the time necessary for the long roll call, would take this one phase of the bitter fight into the late afternoon.

Whatever the outcome, it was planned to appoint committees before adjourning the session and then take a brief recess until 8 or 9 o'clock tonight. The night session, it was expected, would be short. At this adjourned session it was planned simply to receive the reports of the committee on rules and possibly that from one other committee.

As now laid out by the leaders, the convention will be organized to proceed to business on Thursday morning. It is expected by them that the credentials committee and platform committee will report Thursday night.

At this time the Roosevelt followers can renew their demands for a "purging" of the roll of the convention and have another individual roll call on the question.

Then Double Convention.

Then, if the Roosevelt partisans are beaten, may come the much-talked-of double convention.

In this connection it was frequently rumored that Colonel Roosevelt had urged his managers to take steps today to force the issue regarding the demanded revocation of the action of the national committee in the contest cases.

Also it was said that the Roosevelt forces would refuse to recognize Senator Root as the legally elected temporary chairman of the convention.

The Roosevelt managers claim to be extremely confident of their ability to suit the situation to their candidate. They declared they would have many additional votes on the future roll calls. To support this claim they said that they would have eight votes from Maryland, which went to Senator Root on the temporary chairmanship decision, and additional votes from North Carolina, Pennsylvania, Illinois and Oregon.

"We will win out beyond question," said United States Senator Dixon, Roosevelt's campaign manager, today.

Intimates Bolt Imminent.

United States Senator Miles Poindexter, of Washington, was among the Roosevelt leaders who intimated that the possibility of a bolt by the forces was imminent.

"In case these contested delegates are allowed to pass on their own claims,"

WOMEN DELEGATES TELL OF THEIR FIRST VOTES.

Chicago, June 19.—California's two women delegates—Mrs. Florence C. Porter and Isabella W. Blaney, the first of their sex to ever cast a vote in a national convention, had little to say last night regarding their experience. Mrs. Porter was the first of the two to cast a vote for McGovern for temporary chairman.

"I did not mind it at all," said Mrs. Porter last night.

"In fact I enjoyed the experience. I was the first woman who had ever done anything of the sort and when I got up I felt a good deal like a Joan of Arc. I was making history for the women of America, though in a slightly different way than Joan made it for France."

"Oh," said Mrs. Blaney, "I just voted, that's all. I can't recall how the experience affected me."

Bulletins Tell Story of Convention Fight in Brief

Chicago, June 19.—Senator Root, the temporary chairman, entered at 10:54 and was greeted with a scattered handclapping. The hall filled slowly and there was little excitement.

* * *

Root called convention to order at 11:15 a. m.

* * *

The unfinished business taken up was Hadley's demand for elimination of 92 contested delegates from the temporary roll. Root announced that an agreement had been reached between Watson and Hadley that three hours of debate equally divided be admitted.

* * *

Hadley presented statement of fourteen members of the national committee that 92 contested delegates should not be seated. Hadley is rebuked, cheers and shouts interrupting his speech.

* * *

At 11:50 a. m. the fire department ordered all of the Coliseum doors on the ground floor closed after the capacity of the Coliseum had been reached.

* * *

"There is nothing to this compromise talk and will not be until we settle this question of organization," said Senator Penrose, when he arrived at the Coliseum. "We will have more votes to reject Hadley's proposition to upset the legal roll than we had yesterday."

* * *

Senator Hemenway, of Indiana, spoke against the Hadley motion. Hemenway said of the fourteen members of the national committee protesting against committee's roll call, all but two had been retired from the committee this year.

* * *

Chicago, June 19.—During Record's speech, a war of heated words broke out in the Indiana delegation. The lie was passed between Captain W. E. English and W. H. Dye. Great confusion followed.

Mayor Shank, of Indianapolis, said Record was a liar. "He can get a scrap out of me if he wants it," said Shank.

SPARROW TELLS HIM IT'S GOING TO BE TAFT.

Chicago, June 19.—State Senator Patrick Sullivan, of the Wyoming delegation, told his associates last night that a little brown sparrow had indicated to him that Wm. Taft was the man who was going to carry off the republican nomination.

"I don't believe in omens," said Sullivan, "but today a little sparrow flew into the Taft headquarters and perched on a large picture of the president, after flying about in a circle for several minutes. That tells me that Taft is the man."

The Origin of Mr. Wolf's Pompadour

THE WIFE of a well-known Fort Wayne business man, living on Fairfield avenue, told the story of a terrible scare given her and her daughter the other night when they were returning home from a social affair.

"We were walking along Williams street," she said, "when all at once the attention of both of us was drawn to the actions of a man on the porch of one of the houses which we were passing. He was in a deep shadow, seemingly trying to crouch down out of sight, and I am afraid that both of us did scream a little in our fright as we stood transfixed by the thought that we were looking upon a burglar. We were further convinced of the character of the man when we saw him creep stealthily to the window and attempt to lift it. By this time, we came to our senses and ran down Williams street, hardly knowing what to do—whether to go on home or give the alarm. It happened that two young men came along just then, whom we later learned were E. J. Gallmeyer, who is a salesman for Bowser's, and Walter Wolf, with the Electric works. We told them of our experience, and they seemed brave as they started to go to the scene of the scare. We went with them and we approached the house stealthily so as not to alarm the man if he were still there. Sure enough, there he was, still trying to lift the window. I don't know what became of Mr. Wolf, because I didn't see him after that, but Mr. Gallmeyer said to the man:

"'Here, you, what are you doing?'

The Burglar.

"He seemed quite brave. The man turned to us and said in a whisper: 'Sh-h-h-h-h! Keep quiet, can't you? I have been out wish shum of the boysh, and I'm a-tryin' to get in wishout wakin' her up.'

"With that, our alarm quieted down and we went on home, wondering if the fellow succeeded in making his entrance without arousing 'her.'"

The boys at the Electric works state that they have noticed that young Mr. Wolf's hair has been standing on a[illegible] ever since that night. The[illegible] pompadours have their origin.

THE COTTAGERS AT WINONA LAKE

Resort Will Have Its Largest Summer Population This Year—Many Attractions.

Winona Lake, Ind., June 19.—Winona Lake is rapidly assuming its summer metropolitan appearance with the return here of many of its summer residents. There are now only two houses on McDonald island that are unoccupied. While the island is the first part of the park to be so completely populated, other parts of the park have the best crowds that have ever been known at Winona at a corresponding time of the year, and the chances are that the first sermon of the season, Sunday, June 30, will see the largest crowd that has ever been present for the opening of the assembly season.

Not only will the crowds be the best, but the program for the first week promises to be the strongest first week the assembly has ever offered. And not only does it promise to be the best and to have the largest opening crowd, but the program is the most expensive ever offered at the time of the season.

Nat M. Brigham, classmate of Theodore Roosevelt, will open the evening entertainments with American illustrated lectures July 1 and 4. On Tuesday evening, July 2, the Wetherwax brothers will give a concert. They are ranked with the Whitney brothers, who have retired from the platform and whose place practically has been taken by the Weatherwax quartet. On July 4, in addition to the Fourth of July athletics, aquatic sports and the like, there will be two concerts by the Hussars, a military organization comprising a whole brass band. For the evenings of July 3 and 6 the Kinemacolor ,one of the biggest attractions of the season, will be featured. After receiving detailed reports of damage to southern crops on account of the recent floods, Charles S. Bash is advising farmers of Allen county to seed heavily, especially potatoes, as a great shortage will without doubt be noted during the coming fall and winter. H. A. Rockhill, of Angola, who is at Hot Springs, writes Mr. Bash that the devastation in the southwest is fearful. Mr. D. M. Walk, of Chicago, who visited Mr. Bash this morning, stated that in Tennessee there is a likelihood that farmers whose crops were destroyed will be supplied with seed sweet potatoes, to take care of the demand during the winter. Mr. Bash advises farmers to seed late potatoes on all available land.

Making a Game Fight.

Whether the outcome of the Chicago convention shall be the renomination of President Taft, the selection of Colonel Roosevelt or the drafting of a dark horse candidate to carry the republican banner in this year of grace, the country is going to be compelled to take off its hat to the strenuous gentleman from Oyster Bay and his lieutenants for the fight they have put up. The merry chase they gave Senator Root as the Taft candidate for the temporary chairmanship of the convention is amply sufficient to compel recognition of the militant effectiveness of the Roosevelt cohorts.

There were times during the call of the vote by delegates on the convention chairmanship when Governor McGovern, the Roosevelt candidate for the position as presiding officer, was leading Senator Root by a margin that must have been at least distressingly uncomfortable to those patriots who foresee doom not only for the grand old party but the very country itself unless tradition is respected and President Taft given the endorsement a renomination will carry with it. It was the sort of a situation that occasionally precipitates a stampede, and yet as The Sentinel has insisted from the outset, the Taft crowd has few effervescent tendencies and is in no great danger of an explosion from the interior.

It was rather adroit politically, also, to shift from Senator Borah, pronounced Roosevelt man, to Governor McGovern as the Roosevelt candidate for the chairmanship. The purpose, manifestly, was to coddle the LaFollette delegates so that they might be the more easily induced to flop into the Roosevelt camp when they are finally convinced that they have done their whole duty by their idol and that there is no necessity for longer standing on the burning deck whence all but they have fled. The action is one that will probably count for Mr. Roosevelt if the voting for a presidential candidate is prolonged beyond a single ballot.

It is true that the vote which carried the Roosevelt chairmanship favorite so close to Senator Root in the contest for the gavel represents not only the Roosevelt vote, but the LaFollette strength as well. And the fact also remains that the Taft politicians were vindicated in their predictions by the result. But there is no use attempting to deny the fact that the Roosevelt following put up what their whirlwind leader would probably characterize tersely as a "bully good fight."

It cost an Indianapolis woman $70 to faint from the fact that while she wandered off into the unconscious state somebody robbed her of that sum of money. Still this may prove to be only the expert publicity man's scheme to boom the smelling salts market by inducing the rest of femininity to take no chances of this kind.

Some of those aspirants for the republican gubernatorial nomination who are now shedding their effulgent radiance about the Indiana headquarters at Chicago may be expected to come home with the claim that they were the original Taft men, or Roosevelt men, or dark horse men, as the case may be, and attempt to prove it.

PROUD OLD HUMAN RACE.

Scientists have figured it out that the valley of the Nile has remained in virtually its present condition for a million years, and that Egyptian civilization is anywhere from 5,000 to 500,000 years old.

Makes a fellow feel mighty small, doesn't it?

Tom Reed was once asked what he thought of a certain southern member of the house, who was constantly airing his views on every conceivable subject that came before that body.

"Why, he's all right," said Tom, in his nasal way. "The only trouble with him is that he misapprehends his relation to the solar universe."

Isn't that true of all of us? Here we are a million years since civilization overcame the savagery of the wilderness, and we haven't settled the tariff question yet, nor even the right and wrong of the hobble skirt. And the solution of the real problem—the matter of making a world in which everybody shall have enough and nobody too much—sometimes seems to be as distant as that day when the first sunrise shimmered on the murky waters of the Nile.

We are little bats, beating our wings against the cage of the universe, bruising ourselves on the wall of things as they are, then passing away into forgetfulness with nothing much accomplished. And we've been on the job some hundreds of thousands of years, they say.

CONVENTION VISITORS.

(Indianapolis Star.)

The average attendant upon a national convention is a curious study. He parades the streets, he stands about hotel lobbies, he begs for a ticket of admission, he sees at a distance the famous men he has read about—but so far as knowing what is really going on, he would be much beter off at home reading his daily paper, whose reporters are trained in the work of getting at real facts.

He is "on the ground." He is in it, but not of it. He joins this, that or the other procession of "boomers" and yells himself hoarse in the effort to swell the volume of noise and enthusiasm—all of which is about as effective in influencing the result of the convention as if he were to go out in the woods and yell at the trees.

Yet Chicago is jammed with these men today. In the aggregate it has cost them many hundreds of thousands of dollars and much personal discomfort to make this futile demonstration of their sentiments, and it will cost them as much more before they get back home and get rid of the headache they are acquiring.

BALTIMORE NOW HAS ATTENTION OF PRESS.

Prospects.

Houston Post: "The democratic party will approach the national convention with better prospects if it will keep in mind that we ought to nominate a president rather than a mere candidate."

Democratic House.

St. Louis Republic: "Baltimore is only an hour's ride from Washington, and a nominating convention may be in session in one city without interfering seriously with the public labors of a democratic house in the other."

Conservative Atmosphere.

Albany Knickerbocker Press: "The atmosphere of Baltimore is more conservative than the atmosphere of a western city, but it is hardly likely that this fact will make any difference in the result of the convention."

A New Start.

Birmingham Ledger: "The democratic party has overlived all parties and seems destined again to be put in complete control of national legislation. It is well to go back to Baltimore to make a new start."

"An Interesting Affair."

Indianapolis News: "It is possible that the Baltimore convention may go into history as one of the greatest of all conventions. It looks now as though it would at least be an interesting affair."

Almost Twenty Years.

Boston Transcript: "The democracy comes east for its greatest national gathering because, whether mistaken or not, it believes that it has better chances of making conquering gains in the east than at any time for almost twenty years."

"Some Kind of a Democrat."

Philadelphia Press: "At Baltimore the democrats will probably nominate some kind of a democrat to head their ticket, but what kind of a democrat it will be only the most reckless prophet would undertake to say."

"Rising Tide."

Philadelphia Record: "It was a graceful deference to the rising tide of democracy in the east that led the democratic national committee to select Baltimore as the place for holding the presidential convention."

Inspiration.

Philadelphia Bulletin: "The return to Baltimore recalls its popularity as 'the convention city' and the impassioned oratory of the convention will not lack for inspiration as the earlier platforms and candidacies given official birth in that city are recalled."

WILBUR WRIGHT'S PREDICTION.

Never was there a closer mouth than Wilbur Wright's. A few weeks before his death, however, he talked about the future of the hydro-aeroplane, the amphibious thing that cavorts both on the water and in the air. He declared that the advent of this device opened an era of safety and usefulness for his invention.

He thought it likely to be used to great advantage in naval and coast work, including the life-saving service, for mail and light express; to put belated passengers aboard ship and take off those in a hurry to land.

He suggested it will soon be common enough for the tired business man to pull his desk, step into his hydro-aeroplane and skim off over the blue waters or through the air to his summer home in the mountains or by the sea. "He is going to do his flying as unconcernedly as he now does his motoring or motorboating," said the inventor.

In view of the fact tht Wilbur Wright talked so little and will never talk again, it is rather interesting to have his vision of the coming utility of the flying machine.

LAW OF PROGRESS.

It is by suffering that we learn. Here, for example, is the steamship Mauretania with two captains, one to give his attention to the discipline of the crew, while the other concentrates his attention on the safety of the ship.

Why two captains? Because the Titanic lies at the bottom of the sea. But from her grave she commands the great liners of the future. They take her orders.

It is so with all social progress. We have to be clubbed by cruel experience.

FINDS COPY OF RARE BOOK.

"Fox's Martyrs" Bought for $9—Similar Edition Brought $10,000.

San Francisco, June 19.—A 1766 edition of "Fox's Book of Martyrs" has been purchased in a local second hand book store by Theodore Kytka, a handwriting expert.

Kytka found the book searching for samples of inks that had held their color for centuries. He was not aware of the value of his find until he read a newspaper clipping that told of J. Pierpont Morgan purchasing a similar volume for $10,000. Kytka paid $9 for his copy.

EPWORTHIANS OF THIS DISTRICT

Meeting in Three Days' Convention at Simpson M. E. Church.

NEW BISHOP IS HERE

Owing to the lateness of the arrival of the district president, Frank S. Hickman, of Angola, the sessions of the annual convention of the Fort Wayne District of the Epworth League, scheduled for 10 a. m., did not begin at the Simpson M. E. church until nearly the noon hour today. They were preceded by a praise and song service conducted by Rev. W. A. Griest, the pastor of the church, and after a preliminary organization an adjournment was taken for the noon lunch, which was served by the ladies of the church in the basement rooms.

The addresses of the afternoon were delivered by Mrs. W. Northcott, of Williamsport; Rev. B. Earle Parker, of Richmond, and others, the hillside service at 5 o'clock at the Reservoir park being conducted by Rev. Emory Dunbar, of Portland.

Bishop W. O. Shepard, of Chicago, who arrived at noon, was present at the afternoon session and spoke briefly. He delivers the address at the meeting to be held at the church this evening. There will also be a banquet this evening to the visiting delegates. The sessions of the convention continue tomorrow and Friday. The program in its details was published in The Sentinel last evening.

Transportation was provided in automobiles, through the courtesy of Mesdames Moynihan, Fox, Magee and Leslie, and Messrs. Popp, Stephens, White, Drayer, Haberly, Morris, Randall.

Yonkers, N. Y., June 19.—Friends of Mrs. Margaret McMahon, of No. 109 Jefferson street, whose son was shot and killed, fear she will be blind. She has wept almost continuously since the police told her of her son's death, and physicians say she has permanently impaired her sight.

SETS HER "NIGHTIE" AFIRE.

New York, June 17.—Shortcake may taste delicious, but eight-year-old Agnes Vaughn, of Dobbs Ferry, found that it is dangerous to steal it. She came very near being burned to death while eating a slice when her mother's back was turned. Agnes had been tucked away in bed early and Mrs. Vaughn thought she was asleep. Instead she stole out again in her "nightie," got a candle and slipped in the pantry. While slicing off a generous piece she set the nightgown sleeve afire. Her mother seized a pan of dish water and drenched her. She was badly burned on the shoulders and chest.

Mr. Walter Gotsch, organist of the church, played the wedding music and a special musical feature of the reception at the bride's home was the singing of the Oakland male quartet, composed of Messrs. Louis Waltemath, Herman Hollman, William Schwartz and William Hollman. The quartet sang a composition by Prof. H. Ruger, also of Fort Wayne, entitled "Hoch Zeits Wuensche." The bride was attended by her sisters, Misses Louisa and Clara Bleeke, of Decatur, and the groom by his brother and nephew, Messrs. Gustave and William Walda, of this city. The wedding of Miss Frances Marguerite Perkins, daughter of Mr. and Mrs. L. Perkins, of New Haven, and Mr. William Landin, was solemnized this morning at the Cathedral at 9 o'clock. Rev. J. R. Quinlan officiated at the nuptial mass. The bride and groom were attended by Miss Loretta Landin and Mr. Nicholas Belling, a sister and a cousin of the groom, and by Miss Wilma Brower, the small niece of the bride, who acted as flower girl. The bride was beautifully gowned in white satin messaline made with train and trimmed handsomely with princess lace. A drapery of messaline in the skirt was held with satin buttons, and similar ornaments of satin held the lace on the bodice. A long veil of tulle was held to the hair with a small wreath of smilax and white rosebuds. The bride carried a white prayer book with marker of gauze ribbon and rosebuds. The bride's only ornament of jewelry was a gold brooch worn by her mother on her wedding day. The bridesmaid wore a white embroidery gown with a pink satin girdle and her flowers were pink and white carnations tied with pink gauze ribbon. She wore a wreath of pink and white sweet peas in her hair. The little flower girl wore a white embroidery dress with dainty val lace trimmings and lavender hair bows and carried a basket filled with lavender and pink sweet peas and plumosus. After the church service the bridal party were entertained at the home of the bride's parents, where a delicious breakfast was served to fifty guests, including relatives and a few close friends. The bride's table was tastefully decorated with pink roses and there were festoons of smilax on the cloth. The bride cut and served the bride's cake. Vases and bowls of roses and peonies with ferns decorated the rooms. The bride and groom left this afternoon for Detroit, Cleveland, Niagara Falls and Buffalo. For traveling the bride wore a tan imported serge suit with a white embroidered voile waist and a hat of Milan braid trimmed correspondingly. On their return Mr. and Mrs. Landin will be at home with the bride's parents until September 1, when they will go to housekeeping on the goorm's farm, two miles north of New Haven.

LOCAL MEN HOME FROM THE FIGHT

Vesey, Harris and Dickson Say Taft is in Control.

HARRIS SEES PLAN

Allen J. Vesey, chairman of the Twelfth district republicans; Robert Dickson, who was to act as assistant sergeant-at-arms, and Attorney E. V. Harris have returned from the republican national convention at Chicago, all expressing joyful thanks that they escaped from the Coliseum mobs without black eyes, broken limbs or other more serious injury.

Mr. Vesey states that he accomplished all that he could do and that his time was occupied while in the Windy City in handling tickets to the convention hall. Mr. Vesey, himself, did not get a seat at the opening session.

Mr. Harris states that he went to Chicago to witness the opening session, and that luckily he obtained a seat beside Judge O. N. Heaton. In conversation with friends since returning, Mr. Dickson declares that the Taft people are in entire control of the convention and that the nominee will either be Mr. Taft or a third man.

Says It's Very Close.

"The Chicago convention is very close," said Mr. Harris. "The Taft people are now in control, and will stay there after having overpowered the opposition in electing Senator Root as chairman, but if a plan now on foot materializes the nomination will be close. There is a plan, which in all likelihood will cause considerable interest, and that is the combination of the Roosevelt and La Follette delegates, for the nomination of Mr. Roosevelt. This will bring the colonel to the front in spite of the fact that the Taft contingent succeeded in electing a chairman by a majority of fifty-six votes. There were a number of Roosevelt men who voted for Root who will not support Taft. If, however, the La Follette and Roosevelt men do not reach an agreement, nothing can hinder President Taft's renomination."

Mr. Harris says that the convention is policed every ten feet and that there is no chance for serious disturbance. He states that the delegates are not even allowed to speak too loudly and that a strict order has been in force and will continue, so that no disturbance will occur. An attempt is made to listen respectfully to each speaker, whether for Roosevelt or Taft.

LIVES SEVEN DAYS ON PORCUPINE.

Man Lost in the Woods Wanders Until Found Exhausted.

Ogdensburg, N. Y., June 17.—After wandering in the woods for seven days without food James Belanger was found in an exhausted condition near French River. Belanger came to French River looking for employment. Not securing work, and having no money, he attempted to walk to Byng Inlet and became lost. Men heard cries and found Belanger. His hands were covered with bites of black flies. He had nothing to eat but a porcupine which he killed two days ago. He is in a critical condition.

THE COURTS.

Notes of the Courts.

Elmer Manor wants a divorce from Maude I. Manor, because, he alleges, she left him a year after their marriage in June 1910. He also charges that she was quarrelsome and received letters from other men. Colerick & Hogan represent her.

George H. Beckman says of Hattie E. Beckman, in his divorce complaint, that she received letters from immoral men, called him bad names and eventually left him. They were also married in June, 1910, and lived together until last May. Emrick & Emrick filed the suit.

Bert Smith obtained a decree from Nora Smith, and she was given the custody of their children, with an allowance of $15 for their support.

Miss Helen Kelly gave a luncheon of lovely appointment at her home in Fairfield avenue today for twenty covers in honor of Miss Constance Keplinger and Miss Edna Heit, who are to sail on June 22 for Europe. A Japanese basket in the center of the long table was filled with white roses, sweetpeas, snapdragon and peonies, all mingled with plumosus. A corsage bouquet of white sweetpeas and plumosus lay at each plate and tiny green baskets filled with salted nuts were individual favors. On the three smaller tables for the remainder of the company were small crystal vases filled with pink roses and the corsage bouquets displayed pastel shades of sweetpeas. The effect was charming.

A bride of June, Miss Emel Verweire, was the honor guest today at a luncheon given by Miss Carlie Olds at her home in West Berry street. The table was laid in cluny lace with marguerites and sweet peas the principal floral decoration. In the center of the table was a handsome silver candelabrum with silver shades and holding white candles. The flowers were arranged in low crescent shaped crystal vases and they formed an unusually pretty and attractive decoration. Pink roses decorated the rest of the room. Other guests besides Miss Verweire were Mrs. Walter Krimbill, of Chicago; Mrs. W. M. Wardrop, Mrs. Frank I. Brown, Mrs. Charles Niezer, Miss Zangerle, of Chicago; Miss Grace Smith, Miss Ignota White, Miss Linda McKinnie.

Recently elected officers of the Mary Penrose Wayne chapter of the D. A. R., of which Mrs. C. B. Fitch is the regent, were guests at 1 o'clock today of Mrs. Fitch, who entertained in addition to the regular officers, members of committees. They included the new committees appointed according to directions from Washington at the biennial convention of the national D. A. R. society. The appointments of the luncheon were beautiful. The dining room was in pink sweetpeas and plumosus fern with pink hooded candles and baskets of flowers on the table. Dainty touches appeared in the various courses, sweetpeas with one course and ferns during another, while the strawberries in the dessert appeared to be growing from their own foliage in tiny baskets. The living room was decorated with coriopsis blossoms in brass baskets and the reception room in pink peonies. Out of doors, near the entrance to the house, waved the "stars and stripes." Altogether it was a social gathering of much interest to the "Daughters" and the elegance of the affair and the spirit of cordial hospitality combined in contributing to the pleasure of the guests, who were Miss Margaret Vesey, vice regent; Mrs. J. B. Crankshaw, recording secretary; Mrs. Paul Mossman, corresponding secretary; Mrs. W. A. Diffenderfer, treasurer; Mrs. B. J. Griswold, registrar; Mrs. Martha B. Hanna, historian; Mrs. H. G. Granger, chaplain; Mrs. E. H. Merritt, Mrs. F. H. Jones and Mrs. Edward White, program committee; Mrs. Sarah Vesey and Miss Alice Deihl, membership committee; Mrs. Cora Hunter and Mrs. Perry Randall, relic room committee; Mrs. G. W. McCaskey, Mrs. O. N. Heaton and Miss Gorley, welfare committee; Mrs. Dallas F. Green and Miss Haberly, committee on children of the republic.

Schmidt—Scheumann.

A sweet and womanly young bride of today was Miss Clara M. Scheumann, whose marriage to Mr. Frederick J. H. Schmidt took place at half-past 3 o'clock this afternoon at the home of the bride's parents, Mr. and Mrs. F. H. Scheumann, 1725 South Calhoun street. Rev. C. H. Luehr, pastor of Zion's Lutheran church, performed the ceremony in the presence of the immediate family relatives. Miss Minnie Breimeier played the wedding music and the bride and groom took their stand near a grouping of ferns, palms and vases of marguerites in the parlor without any attendants. The bride looked very pretty in a simple but beautiful gown of white embroidered marquisette hung over white messaline and trimmed with handsome real princess lace. The neck was cut a little low and finished with lace and there was more lace on the elbow sleeves and on the bodice. A touch of pink about the bride's gown was shown in the stylish pink ribbon fashioned in sash effect and in a corsage bouquet of pale pink sweetpeas and maidenhair fern the bride wore. A fine wedding dinner was served at 6 o'clock. The bride's table was decorated with a basket of pink sweetpeas with white maline bows tied on the handle and a festoon of smilax on the cloth and on the chandelier above. Marguerites, smilax and ferns decorated all the rooms and added to the prettiness of the wedding. The bride and groom will go to housekeeping at 1829 Broadway and will be at home to their friends there after July 15. Mr. Schmidt has been working for the Fort Wayne and Northern Indiana Traction company for several years and now holds the responsible position of assistant auditor. He is a young man of excellent character and is popular among his associates. The bride has many devoted friends of whose confidence and esteem she is in every way worthy.

Rev. John H. Rosen, pastor of the church, officiated at the ceremony. The bride looked exceedingly well in a becoming gown and hat. The dress was made of white messaline with cream silk embroidered overdress trimmed with princess lace and the bride's hat was a large white lace one with trimmings of rosebuds and white plumes. The bridal bouquet was of bride roses and white ribbons. Little Velma Omen from Flint, Mich., a niece of the bride, was a flower maid and dressed all in white embroidery and with a bunch of white carnations in her arms, she made a lovely picture. At 4 o'clock an elegant wedding supper was served at the home of the bride. The table was decorated with bouquets of roses and white carnations. The rooms were decorated with carnations, roses and festoons of white crepe paper. The guests, who numbered about thirty, were members of the family and nearest friends. First Woman Delegate Writes from Chicago Convention for The Sentinel Today.

ON RIGHT, MRS. FLORENCE COLLINS PORTER, WHO WRITES FOR THE SENTINEL'S WOMAN'S DEPARTMENT TODAY, AND MRS. ISABELLA W. BLANEY, FIRST WOMEN DELEGATES TO A NATIONAL REPUBLICAN CONVENTION. SNAPSHOT PHOTOGRAPH TAKEN ON THEIR ARRIVAL AT CHICAGO FROM CALIFORNIA, THEIR HOME STATE.

By Florence Collins Porter.

(Written Especially for The Sentinel.)

Greeting to every woman in the United States who stands for a government of the people, by the people, for the people.

The California delegation, of which Mrs. Isabella W. Blaney and myself are a part, will stand only for the seating of the entire California delegation because the delegation entire was elected by the people of California and the action of the national committee in unseating two of its members will receive vigorous condemnation as a high-handed outrage, not only perpetrated upon the grand old party, but upon the principles of democratic government.

The people, without regard to party, will not stand for this.

Neither Mrs. Blaney nor myself were at all anxious to be the first women to sit in a republican national convention, but we accepted the unanimous request of the voters of California to do so as a duty, with the sure knowledge that our coming would insure an open path to the door of the convention for many more women next time.

It has been demonstrated in California that politically enfranchised women make not only for decency and dignity at the polls, but it can be said with decision that had there been women on the national committee the disgraceful proceedings which preceded this convention would have been mitigated.

I am sure that every thinking woman is delighted that Colonel Roosevelt has come out for women's suffrage. He has almost an intuitive grasp of affairs and the psychological moment. He realizes that whether the "old guard" submits to the will of the people or whether a new party springs from out the debris it is only progressive democratic principles that can win, and democracy can mean nothing else than the will of all the people without regard to sex.

Milady's Toilet Table

By Mme. D'MILLE.

"For dark and discolored skin, enlarged pores, blotches and other facial blemishes a simple lotion made at home is highly recommended. Dissolve an original package of mayatone in a half pint witch hazel and rub a little on the face, neck and arms each morning. This is better than powder, for it tends to correct faulty complexions and makes the skin soft, smooth and youthful looking.

"Plain pyroxin applied to thin and straggly eyebrows with finger tips causes them to grow in thick and beautiful. Eyelashes will come in long and curly if pyroxin is applied to the roots with forefinger and thumb.

"A dry shampoo refreshes the scalp, removes dust, excess oil and dandruff, and leaves the hair beautifully fluffy, light and lustrous. To make the shampoo powder, mix four ounces of powdered orris root with an original package of therox. Sprinkle a teaspoonful on the head, brush it out thoroughly—and you will be delighted with the result.

"An effective and satisfactory method of removing superfluous hair is to apply delatone paste to the hairy surface, allow to remain two or three minutes, then wipe off, wash the skin, and the hairs will be gone. To make the paste, simply mix powdered delatone with water."

WHERE THE BIG NOISE IS MADE

Mr. Newman Takes a Few More Peeps at Convention Notables.

LISTS LIVES ONES

(By Oliver P. Newman.)

Chicago, June 19.—If there's any rough-and-readier, drop-hattier scrapper for political decency in and around the convention crowds at Chicago than George L. Record, he has not yet lifted his head high enough to be observed. Record is built along the general architectural lines of an aeroplane stood up on one wing—which they do say is a result of years of swinging full arm jolts to the jaw of sinning New Jersey corporations.

Woodrow Wilson proved that good could come out of Nazareth, but he wasn't the first man to do it. George L. Record had been proving it for years, but it took Wilson to get the publicity. And the irony of it is that Record was the boy who gave it to him—which is also where Record pulled down the modicum of recognition that should have been his long before.

Record, having tried to get somewhere with insurgency in the republican party, pumped seventeen hot questions at Wilson when the latter was a candidate for governor. He thought the bosses owned Wilson and that the questions would dumfound him—and show him up.

"But Wilson fooled me and everybody else," says Record. "He came back bing, bing, answering every question tersely and right, showing his progressiveness was on the square."

The incident elected Wilson governor and helped make him a presidential possibility.

"And gave me left-handed fame," observed Record.

You undoubtedly read, a few days ago, a little item from the Panhandle of Texas, about how "rainmakers" had produced a good two-day rain by firing off dynamite. Probably you smiled. But if you did, you've got another guess coming. That rainmaking thing is on the square. If you don't believe it, you can wire "Charley" Post, care the Coliseum, Chicago. He'll prove it to you.

C. W. Post, who comes from Battle Creek and radiates breakfast food and cheer, the other day ran down to his ranch—consisting of one county about size of New Hampshire—brought down rain just in time to save his cotton crop, and then beat it for the big show in Chicago.

"All I've got to say about rainmaking," declares Post, "is that I've done it three years running when there wasn't the slightest chance of rain, according to all indications. If you think it's merely coincidence, I've nothing more to say."

* * *

Frank Knox, the auburn-haired, boyish-faced national committeeman from Michigan—whose political wisdom runs in inverse ratio to his youthful appearance—strolled out of the committee room at the Coliseum annex one sultry afternoon, crossed to the telegraph office, tore a "day letter" blank off the pad, folded it dexterously into a funnel and approached the big tank of ice water supplied for the thirsty in the annex lobby.

"What you got there, Knox?" asked Trust-Buster Frank B. Kellogg, national committeeman from Minnesota.

"A hand-made drinking cup," replied Knox. "Up in my state they don't allow public glasses like this, and I've got so I can't stand it to drink out of anything that everybody uses."

"My state don't allow it, either," said Kellogg. "If this was in Minnesota, Harry New might get pinched."

Now the point of this story is right here: It's against the law in Illinois, too.

* * *

When Governor "Hi" Johnson, of California, went down to the depot to meet the delegation from his state, a reporter approached and queried:

"How many do you expect, governor?"

Holding up his two fingers the governor replied:

"All but two."

After the laugh, he added: "And the other two will be on the job when the fireworks start, believe me!"

BASEBALL ATHLETICS

WINS THE FIRST IN HOME SERIES

Washington Keeps Up Dizzy Pace After Making a New Record.

BEAT THE CHAMPIONS

After winning fifteen straight on the road and creating a new world's record in baseball, Washington maintained its dizzy pace in the American league race by defeating Connie Mack's Athletics in the opening game of the home series.

On the road the club made clean sweeps of four games each at St. Louis, Detroit and Chicago and won three played at Cleveland. This is a new mark in baseball and it is no wonder that a big crowd greeted the Senators on their return.

Perhaps Washington won't win the pennant, but it is the biggest baseball noise since Ban Johnson kicked superstition out of the reserve clause in 1901.

To prove his contempt for a tradition—that Washington will never win a pennant because of the capital's torrid climate—which, the tradition avers, saps the life from the players—Clarke Griffith snorts "Bunk!"

"That hot weather stall was the excuse of every old-timer sent to Washington for twenty-five years. It kept them playing when they were ready for the infirmary. Let us at 'em! We want some of that hot weather," says Griffith.

The Senators have looked like champions since Decoration day. The pitchers have performed wonders and the team supports them at bat, in the field and on the bases. Luck has broken for them, as it always breaks for a winner. They have not suffered from accidents and the team looks like a million dollars.

It is the youngest team under the big tops, regular boy wonders, and they act like kids on circus day. The didoes they've cut around the western rim are shameful. They're no respectors of age or names.

Griffith made his youngsters believe that the Walshes, Donavans, Greggs and Fords are as easy as steam-rolling a republican delegate and then took it as gospel—and beat them. No pitcher can scare them now by throwing his glove onto the field.

In practice these untamed yannigans resort to vaudeville to stampede the enemy. They flash through sizzling, ground and lofty fielding practice, whale the whey out of straight ball pitching in batting practice and stop at nothing calculated to grate upon the enemy's nerves. Judging from the way they are going the stuff takes like the smallpox.

For a long time Walter Johnson, George McBride and "Zeb" Milan were the Washington stars. Today Chick Gandil, Chicago cast-off; "Kid" Foster, Moeller, Shanks and Morgan, minor leaguers, with a couple of kid pitchers, share honors with them.

The team is a sweet-working machine that grinds ceaselessly. The parts fit as snugly as a tube skirt on a burlesque prima donna, and obey the master hand of Griffith, who was dropped by New York and Cincinnati just when he developed winners.

It must be cherries for "Griff" to come back with the humblest of the humble, and daub victory after victory on baseball's pages for Frank Farrell and Garry Herrmann to reflect upon.

WITHIN GAME OF THE EVEN BREAK

Double Victory in Closing Games at Canton Was a Great Closing.

GLAD TO BE HOME

When Manager Francis Joseph Shaughnessy and his Billiken band left Fort Wayne eighteen days ago for their first invasion of the eastern wing of the Central league circuit he said he would try hard for an even break and by closing with a double victory over Canton yesterday his troupe came within one game of winning half, and if Jack Mercer had kept in line and Harry Martin had been able to work in the opening games it would have been an easy task.

Eight out of eighteen games under the conditions encountered on the trip is a most excellent record and the players are now in position to get into the first division.

Although the club is disputing with Canton the place at the tail end of the first division it is only about eight games behind Youngstown at the top of the heap and the Steelmen have a hard task ahead of them in nine games with Fort Wayne, Grand Rapids and Terre Haute. George Harden's showing on the trip indicates that the pitching staff is much stronger than when the team left home and with him and Charlie Alberts in line there is every reason to believe that the club will play better ball from now to the close of the season.

All of the players are hitting the ball and all of them are playing the game as it should be played and a few days in home surroundings ought to make a big difference in the position in the race.

Harden pitched the first game of the double bill and he gave three hits that netted three runs. However, his pards were back of him with slme high-class support and he won handily after the one bad inning in which the opposition grouped its runs.

Keener walked in the second inning of the first game and after he had been forced at second by Fabrique, Harry Martin lofted the ball over the fence for a homer. Coulter was passed in the second half and after he had breezed Texter he passed the next two batters, filling the sacks. Fabrique kicked in with a fumble that allowed one run, and a hit by Jeff Holmquist sent another man home and a third went in on Dawson's out.

Keener's double following Clancy's pass tied the score in the fourth and the game was won in the eighth when Vandagrift hit and took second on an out, scoring on Clancy's single.

Three hits off Alberts in the second inning of the second game tied the score after Fort Wayne had led off in the first with a run on Blount's hit, a sacrifice and Shaughnessy's double. A hit batsman, King's fumble, an error by Robinson and a couple of singles in the fourth gave Fort Wayne four runs and the game.

BADGERS TO PRACTICE.

The members of the Badger baseball club are requested to report at Swinney park this evening for practice.

UNCLE SAM'S OLYMPIC BROAD-JUMPERS ARE REAL KANGAROOS.

Frank C. Irons, World's Champion.

H. F. Fletcher, Standing Broad Jump Winner at Evanston, Ill.

H. T. Worthington, Who Jumped 23 Feet 10 Inches at Cambridge.

When the "leppers" get busy in the Olympic stadium at Stockholm, the men who wear the tri-colored shield of Uncle Sam will compare well with the best men of Europe.

The wonderful leap made by Frank Irons, in 1908, when he jumped 24 feet 6½ inches, may not be exceeded, for it is doubtful is there is a 24-foot man competing today. Irons did 22 feet 9½ inches in the Olympic trials at Evanston, Ill., and Worthington's best at Cambridge, Mass., was 23 feet 10 inches. But this pair are good enough to out-jump the best abroad.

Platt Adams, who jumped 10 feet 8 inches in the standing broad jump at the eastern Olympic trials, and F. Fletcher, the Notre Dame slammer, who cleared 10 feet 6¾ inches at Evanston, will be the choice of the American entry, but experts do not believe they can win from the marvelous Greek, Tsiclitiras, who holds the world's standing broad jump record, well over 11 feet.

MAY JOIN STOGIES.

Craven Offered Berth and Terms by Manager Anderson.

Grand Rapids, Mich., June 19.—Midge Craven, recently released by the Grand Rapids management, yesterday received a message from Manager E. J. Anderson of the Wheeling outfit, tendering him an outfield berth with the Smokes.

The Midge was deep in contemplation of several other offers from lower class leagues when this stroke of lightning hit him. He is loath to leave Grand Rapids, but will have to if he wants to work, so will probably join the Stogie crowd at Terre Haute.

OFFERS MULLIN IN TRADE.

Manager Hughey Jennings of the Detroit Tigers is said to have offered Pitcher Mullin in trade to the Cleveland team for either Gregg, Kaler, Jackson or Lajoie. He perhaps forgot one or two other stars of the team in offering his squeaky wheeled wagon in a dicker. At that Mullin may have several years more of pitching usefulness in that strong right arm of his, but has been in Detroit too long and would most likely improve with a change of pasture.

MISSES HIS FIRST GAME.

Ned Crowder, the popular little shortstop, missed his first game of the season Monday when he stayed out of the game to give his injured leg a rest. Ned had been playing on his nerve for two weeks.

On the afternoon of July 4 he wrestles Joe Smejkal, the Bohemian heavyweight, at the Coliseum, the affair to be a finish match, best two in three falls.

SUCH TOUGH-LOOKING GUYS.

When the train bearing the Cubs arrived at Syracuse the other day, the dining car of a west-bound train stopped besides Jim Sheckard's window. Some of the New York Yankees were having breakfast, but Sheck didn't recognize any of them. Later he asked what team that was and was informed. "I knew they were ball players," said Jim, "because they were such tough-looking guys."

ED ROGERS WITH THE HOME SQUAD

Will Play Utility Until Place on Team is Vacated for Him.

IS WILLING WORKER

Ed Rogers, known in the Central league and elsewhere as "Lefty," is a full fledged member of Manager Shaughnessy's baseball squad, having joined the team at Canton yesterday. For the present he will play utility and it is likely that he will be used as a pinch hitter, as that is one of the best little things in his repertoire.

He has played first base and outfield with much credit to himself and Manager Shaughnessy said today that he considered him one of the best ball players in the Central league and believes that as soon as he is fixed either as a first baseman or an outfielder and knows just what department of the game he is fitted for he will make a success.

He can pitch in a pinch and room has been made for him by dropping a man from the staff. This is guess work, as the manager insists that he has not made up his mind just what to do. Keener is also a pitcher and with four regular men the club would be pretty well fortified in event of accident to either.

* * *

Laible is still being carried as second catcher and the club has nobody in sight for the job and he may stick for the remainder of the year unless an opportunity is offered to pick up a man with more experience.

He will be in uniform during the home stay and will make the next trip unless some radical changes are made.

* * *

Guy Sample came over from the eastern division, where he has been working as an umpire and will start the series here. He is taking the place of Geisel, who is the most unfortunate as well as one of the best of Dr. F. R. Carson's staff.

* * *

The Erie players came in at noon on the Nickel plate after a long ride. They could not get away from home in time for a late train yesterday afternoon and had to make most of the trip in daylight. The jump is one of the longest in the league and the mileage cuts into gate receipts pretty heavily.

Fort Wayne players arrived from Canton over the Pennsylvania at 8:20 o'clock this morning, but their sleeper was dropped off here and they remained in it until 7 o'clock. All of the men are in good shape.

CANTON TO HOLD BALL FRANCHISE

Business Men Fly to the Aid of the Club and Promise Money.

HAS LOST HEAVILY.

(Canton News-Democrat.)

Canton will not lose its professional baseball team if the proposed action of business men of the city materializes. The plan on foot it is expected will produce a surge in local commercial circles capable of keeping the name of the municipality on the map of sports for months to come.

Following the announcement that the franchise was in danger of being forfeited by the present owners, several conferences were held Monday night and Tuesday morning. Leading business men of the city gave assurances to members of the directorate of the club that aid would be given in increasing the weekly attendance.

"We are not in position at the present time to make a definite statement regarding the situation today," said President Yost Tuesday. "Numerous citizens who have big holdings here have informed me that the forfeiture of the franchise will not be necessary if it is in their power to stop it.

"I can say without fear of contradiction that the club has lost over $5,000 by adverse conditions this season. The owners are not seeking to make a profit. Baseball here has no right to die, and the team is now riding a high horse. A long and strong pull is what is needed by the public at large, and if present plans go through the professional game is not in danger here."

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alterative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

MRS. HESSHEIMER.

MRS. LIZZIE M. HESSHEIMER, of Lincoln, Neb., 529 "C" St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured.

"I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial.

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

THE MOUNTAIN CURE—BY BAKER.

First Flea: I thought you were living on the Dachshund?
Second Flea: Yes. I was; but the doctor advised a higher altitude on account of my lungs.

Of the 12,570,328 gallons of wine imported into England in 1911, 3,167,702 gallons came from Spain and 3,193,478 from Portugal, as compared with 2,055,883 from France and 621,123 from Germany.

S.S.S. MAKES A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy, has made S. S. S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work on the delicate and vital organs, S. S. S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble. S. S. S. is Nature's blood purifier, harmless in its action and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S. S. S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison. While driving out the poison from the circulation S. S. S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering with Contagious Blood Poison S. S. S. is your most certain reliance, and because of its freedom from mercury, potash or any other mineral, it is absolutely safe for every one. JERRY JA CKETTA.

When Jerry Jacketta, a newsboy of San Francisco, picked up a jewel case on the streets and found $2,000 worth of diamonds, he promptly turned them over to the police.

A day later he received a check for $105 from Mrs. Tuxton Realse, the owner. With the money Jerry sent his invalid father to the country and the price of his honesty may lengthen the life, or possibly cure, the sick man.

HALTS WIDOW'S NOVITIATE.

Illness Causes Mrs. Lanman to Leave New York Convent.

Portsmouth, N. H., June 19.—It became known here that by the advice of a noted New York specialist Mrs. William Camp Lanman, a wealthy Connecticut widow, has left Manhattan and is at the convent of the Sisters of Mercy on Hookett Heights. Here she will spend the summer at St. Mary's convent.

At the convent Marie Reparatrice, No. 16 East Twenty-ninth street, New York, Mrs. Lanman has been, since last Christmas, under instruction, having on previous occasions made a number of retreats there with this celebrated order of French nuns. She was formally "inclosed" as a postulant on May 2, and since then has been assisting in the work of this busy community with classes for girls and children.

Suddenly her health began to fail. The last of May a specialist was called and gave orders that Sister Mary Gertrude—for she is as truly a Reparatrice nun as any other member of the distinguished community since she was inclosed—must be sent at once into the country, to live out of doors, or she would die. He stated frankly that she had heart trouble and could not live unless in good, pure air.

WIFE IN SCHOOL AS "MISS."

Wears Short Skirts and Graduates From Chicago Institution.

Chicago, June 19.—Mrs. Laura C. Hammond entered the Englewood high school three years ago as "Miss Hammond." She was in rather short skirts and appeared to be about eighteen years old. She graduated a few days ago near the head of the class, and it now develops that she has been married for thirteen years and is thirty-three years old.

"I wanted to be something," she said. "Six years ago I started at the Dore grammar school and from there I went to the Englewood high. I did pose as a 'miss,' as I thought it would be better. My husband is Ira Hammond, superintendent of the dining car service of the Illinois Central railway. The girls all took me to be eighteen or twenty, and I made many friends among them. I will go to the University of Chicago. My ambition is to practice law."

LAUNDERED MONEY SOON.

Washing Machine for Banknotes Installed in United States Treasury.

Washington, June 9.—Laundered paper money, clean and crisp as new, will soon be in circulation. A currency washing machine has been installed in the treasury department. It is expected to save the government at least a half million dollars annually.

The money washing machine was devised after months of experiment. Millions of notes which would have been destroyed will be washed, starched and ironed and returned to circulation. It is estimated that at least 60 per cent. of the bills presented to the treasury for redemption can be so revived.

It is now well known that not more than one case of rheumatism in ten requires any internal treatment whatever. All that is needed is a free application of Chamberlain's Liniment and massaging the parts at each application. Try it and see how quickly it will relieve the pain and soreness. Sold by all dealers.

THIRTY BRIDES LAND IN NEW YORK

Pretty Scotch Lassies Met at Pier by Future Husbands.

New York, June 19.—On board the "bride ship" of the "bride line" thirty pretty brides-to-be from Glasgow arrived here and were met by 30 prospective bridegrooms from middle west who after seeing the sights of New York, left with the lassies for their home towns to wed. The young women were passengers on board the Cameronia, of the Anchor line. There were sixty passengers, the brides-to-be constituting half of them. Most of the girls came here to wed "bonnie boys" who courted them at home.

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giving Chamberlain's Cough Remedy as may be required. This remedy will also liquify the tough mucus and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by all dealers.

STIR STARTING AT BALTIMORE

Advance Guard of Democratic Leaders is Already There.

HEADQUARTERS OPEN

Baltimore, Md., June 19.—Preliminary to the meeting tomorrow of the arrangement committee to select the temporary officers of the democratic national convention there was further discussion today of the proposition to have the candidate who received the second highest number of votes in final ballot accept the nomination of vice president.

National Committeeman Daniels, of North Carolina, is strongly urging this proposition to his fellow committeemen.

"Of course all the presidential candidates say they would not accept second place on the ticket, but what else could they say at this time," said committeeman Daniels, who added that the makeup of the ticket from the geographical standpoint would be satisfactorily brought about by the adoption of the proposition.

The headquarters of the various presidential candidates were in full swing today and the rival camps issued hourly claims of victory. Secretary Woodson said that all of the contests received so far were quite minor in character. "All in all, I don't believe there will be more than forty seats contested," said Secretary Woodson, and these represent perhaps half a dozen delegations. No one of them is serious.

Lieut. Gov. J. Taylor Ellison, of Virginia, the national committeeman from that state, says that the several candidates in the field will receive part of the vote cast.

"Virginia will be satisfied with any good candidate," said Mr. Ellison. "The state has no candidate of its own."

Former Judge Alton B. Parker, of New York, was said last night to be the likely choice for temporary chairman of the convention, with Representative Ollie James as the next strongest candidate.

W. F. McCombs, of New York, campaign leader for Governor Wilson, took charge of Wilson's headquarters today and announced that Senator Gore, of Oklahoma, and Representative Mitchell Palmer, of Pennsylvania, would second the nomination of the New Jersey governor.

J. Hamilton Lewis, of Chicago, came in yesterday with a plan to swing the vice presidency to an Illinois man. Senator Bankhead, of Alabama, who is looking after the interest of Oscar Underwood, talked things over with the national committeemen.

Friends of Governor Burke, of North Dakota, say that if the convention is deadlocked the governor will be a "dark horse" candidate for president, but if the nomination goes east or south Governor Burke will be a candidate for the vice presidency.

INDIANS WANT THE SUN DANCE.

A Petition to President Taft to Allow the Ceremonies.

Guthrie, Okla., June 19.—Because their aged parents enjoy the sun dance and other tribal ceremonies, long followed by the Cheyennes and Arapahoes, the committee of educated Indians now in Washington will seek to have President Taft and Secretary Fisher restore them. In recent years they have been stopped by the federal government.

Mrs. J. F. Beber, wife of Ticket Agent Beber, of the Fort Wayne and Northern Indiana Traction company, is at Auburn visiting relatives.

ORDER IS GIVEN FOR 13 COFFINS

Miners Entombed by Explosion in Colorado Coal Workings.

ALL THOUGHT DEAD

Trinidad, Col., June 19.—Thirteen miners are entombed and are believed to be dead as a result of an explosion in the new slope of the Hastings mine of the Victor American Fuel company, shortly after midnight. Another miner, badly injured, has been rescued.

The mine is sixteen miles north of Trinidad. The main slope is badly caved and rescuers have been able to make but little progress. Rescue equipment is being rushed to the scene.

The mine officials believe the explosion was caused by a "windy shot" which set off a quantity of gas. The explosion took place in the new slope of the mine 3,000 feet from the mouth where development work was in progress. Fourteen men who were in the night shift were shot-firers and entry men. A large force of rescuers from adjoining mines is at work.

Rescuers who entered the mine early today returned soon afterward with a Greek, who was badly burned. A number of bodies have been located. Air is being forced into the wrecked entry. The Hastings mine is one of the largest producers in the southern Colorado fields. The main portion of the colliery has not been damaged.

The coroner's office here has received an order for thirteen coffins.

ARRIVES WITH LABOR PLANKS

Mr. Gompers Seeks to Get Them Engrafted in Platform.

SAME AT BALTIMORE

Chicago, June 19.—Samuel Gompers, president, and John B. Lennon, treasurer of the American Federation of Labor, arrived in Chicago last night and immediately began the formulation of planks which they will submit to the proper committee for insertion in the republican platform.

Although Mr. Gompers said he would not discuss the proposed planks until they had been submitted, it was said relief would be asked for certain provisions of the anti-trust law and the curbing of the power of federal judges in the issuance of injunctions in labor disputes. It was said also that prohibition would be asked on the shipment of prison made goods from one state to another.

"I do not know when, where or even if we will be given a hearing," said Mr. Gompers last night. "All I know is that we will do our best to wind up our mission here as soon as possible and then go to Baltimore to present the same requests at the democratic convention."

THEY WILL NOT SANCTION BOLT

Roosevelt Chieftains Make No Secret of Their Position.

FIGHTING BLOOD UP

Chicago, June 19.—Roosevelt's chief lieutenants, including Governors Hadley and Deneen, served notice today that they will not sanction a bolt under any circumstances. They made no secret of their position in this respect and announced it to a number of newspaper men.

Theodore Roosevelt had his fighting blood surging early today and from the moment he reached his conference quarters in the Congress hotel until his field captains left for the convention hall there was unusual scurrying about. Senator Dixon, his campaign director; Gov. Hadley, floor leader of the Roosevelt forces; George W. Perkins, Gifford Pinchot and others most intimately in the colonel's confidence had a long conference early in the morning and were closeted with Mr. Roosevelt later for more than an hour.

Gov. Hadley said after consultation of the leaders just before going to Mr. Roosevelt's rooms that he thought there would be no change in the convention program of the Roosevelt forces.

"We are going right ahead fighting every inch of the ground," said Gov. Hadley. "It is the present intention to renew immediately today our demand that the convention be purged of the fraudulent delegations until the credentials committee can act. I know of nothing to interfere with that program." Some of the friends of Mr. Roosevelt were not so certain that the colonel would not have some other plan. "The colonel is absolute boss," said one of the Roosevelt lieutenants this morning. "We know of no change in the campaign plans up to date, but he might change them at any moment."

RUN DOWN BY LOCOMOTIVE

M. A. McMullen, Pennsylvania Caller, Crippled for Life.

HAD LEG CRUSHED OFF BELOW KNEE

Accident Happened Soon After Victim Left Home for His Work.

Michael A. McMullen, caller of engine crews for the Pennsylvania, who resides with his mother, Mrs. James McMullen, at 303 West DeWald street, was run over by an engine and had one of his legs crushed off just below the knee at 6:15 o'clock this morning.

The young man was en route from his home to the road foreman's office to report for duty and when he reached the crossing at Hanna street, he got upon the steps of yard engine 7730, in charge of Conductor C. Pfleidner, Engineer G. M. Kress and Fireman F. E. Sarver, which was eastbound, and rode to the round house.

Going in the same direction on another track was engine 7519, which had brought the Pennsylvania Special down from Crestline and was bound for the round house, in charge of Engineer Frank Simonton and Fireman Otto Dirmoyer. Young McMullen failed to notice this engine and when he jumped from the footboard of the yard engine he stepped to the opposite track, immediately in front of the approaching locomotive and was knocked down in such manner as to allow one of his legs to get beneath the wheels and the limb was crushed off.

He was hastened to St. Joseph's hospital, where the limb was amputated and some minor injuries were attended to. He passed through the fearful ordeal in good shape and it is the opinion of the surgeons that Michael will live.

The injured man is about twenty years old and has been employed by the Pennsylvania over three years. His first service was as messenger for Assistant Trainmaster Charles E. McKeehan, at the east yards, but in February, 1910, he was transferred to the engine department and since has called engineers and firemen who were wanted to take out trains. He is the son of the late Engineer James W. McMullen, who lost his life in a railway accident at Crestline several years ago.

AMERICAN ENGINEERS' WAGES.

Compensation Twice That of the Engineer in European Countries.

Railroad employes in the United States receive twice the pay of railroad employes in the United Kingdom of Great Britain, according to a compilation just completed by the bureau of railway economics of Washington. This relates to the wages paid railway employes and the cost of living, and is based on the latest years for which comparative data are available.

The average daily compensation of railway employes of all classes for the year 1910 was in the United States $2.23; in the United Kingdom, $1.05; excluding supplementary allowances negligibly affecting the average, it was in Prussia-Hesse 81 cents, and in Austria 89 cents. The lowest paid railway employe in the United States, the trackman, receives a greater compensation than many of the railway employes of France, even those of higher grades and with responsible duties. The compensation of railway employes is from two to three times as high in the United States as in Italy.

A recent report of the English board of trade on railway wages shows that the average weekly pay of enginemen in the United Kingdom in 1907 was $11.17; of firemen, $6.67. In the same year enginemen on American railways received an average weekly compensation of $25.80, counting six days to the week, and firemen, $15.24. Recent returns make it clear that in 1912 enginemen and firemen in the United States are compensated at rates of pay for specific runs that are two, three and four times as high as the corresponding rates on representative English railways.

The annual compensation of enginemen in the United States, as reported by two representative railway companies, now ranges from $1,100 in switching service to over $2,800 in passenger service, and of firemen from $700 in switching service to over $1,700 in passenger service.

It is well within the truth to estimate that while the cost of living of a railway employe in the United States is less than 50 per cent higher than that of a corresponding employe in the United Kingdom or on the continent, his compensation averages over twice as great.

FINGERS STRIPPED OF FLESH.

A Macedonian Laborer Badly Injured Handling Railroad Steel

Kamis Russey, a member of Section Foreman J. W. Birtwhistle's gang of laborers, had the flesh completely stripped from the first and second fingers of his left hand at 6:40 o'clock this morning, while at work on the Pennsylvania tracks just east of the coal docks. The men were handling steel rails and Russey, being a new man and unable to speak English, did not release hold of the rail when the order was given and when it dropped it carried the flesh from the fingers with it. The injured man was taken to St. Joseph's hospital, where the company surgeon attended him.

MR. BOWSER GOES TO EUROPE.

Sullivan, of the Wabash, has issued the following merit and demerit bulletin: Suspended—Two engineers and two firemen; demerit marks—Three engineers, two firemen, two conductors, five brakemen, six switchmen, one caller, one agent and two operators; credit marks—Nine engineers, one fireman, six conductors, a brakeman and an operator. Thirty-nine employes were given credit marks for having a clear record the past six months.

LAKE ERIE TO HAVE EXCURSIONS.

Posters announcing two cheap Sunday excursions were posted in Indianapolis Tuesday, according to the Star of that city. The excursions will be from that city to Rochester and Michigan City, one on Sunday, June 23, and the other on Sunday, June 30. This break from the agreement with the Central Passenger association may lead other lines to do likewise and it is quite probable that by mid-summer cheap rates to all summer resorts will be given.

HAD GOOD TIME AT GARRETT.

Twenty-one members of the fire company of the Fort Wayne Electric works went to Garrett last night to attend the opening of the three days' fair the Garrett firemen have on this week. The entertainment is one of the greatest events of the season at Garrett and is bein gattended by not only the people of that town, but by many from adjoining towns. The parade last night was a feature of the entertainment which will be long remembered in that city. It was headed by a platoon of police, the Garrett band and the city officials, followed by the Fort Wayne and Garrett firemen afoot and many vehicles. Garrett's volunteer fire company will attend the tournament at Dunkirk June 27 and the fair is to make money to defray the expense of the trip. The fire company of Garrett has twenty-five members, who will all go to the tournament and take with them upwards of fifty friends. The Fort Wayne "boys" were royally entertained last night.

WILL GO OVER L. E. & W.

Arrangements have been made for the volunteer fire companies from Fort Wayne, Garrett, Butler and Auburn to make the trip to Dunkirk to attend the annual firemen's tournament over the Lake Erie and Western and the Panhandle lines. The special train will leave this city promptly at 7 o'clock in the morning, June 27, and will stop at Bluffton and Montpelier to take on fire companies and their friends and may also take on the Hartford City company. The round trip fare from this city will be $2.30.

DON'T LIKE THE NOISE.

Some of the residents of the west end of the city have a petition in circulation, protesting against the noise made by the engine injectors at work while the locomotives stand on the bridge spanning the St. Mary's river. The petitioners allege that the sound drives away sleep and they believe some action on their grievance should be taken by the city council. The petition will be presented to the board at the next meeting.

GEN. SUPT. SCHOYER IN CHICAGO.

Gen. Supt. A. M. Schoyer, of the Pennsylvania, passed through the city this morning in his private car on train 40, en route to Chicago. He will return to Pittsburg tomorrow, his car being attached to train No. 18, which will pass through the city at 6:55 in the morning.

TURNTABLE OUT OF COMMISSION.

The turntable at the Pennsylvania round house is undergoing repairs today and all engines are handled outside the building and turned at the east car shops, where turning is necessary. It is expected to complete repairs tonight and to have the table in commission again in the morning.

INDUSTRIAL NOTES.

Fireman Girardot, of the G. R. & I., is sick and off duty.

Charles Henke and F. Kite, machinists' helpers, took employment at the Pennsylvania erecting shop this morning.

A. S. Courtney, assistant foreman of the Pennsylvania machine shop, is taking a vacation and is spending the present week with friends out of the city.

Ed Monahan, connected with the Panhandle motive power department in the capacity of inspector, was a visitor at the local shops of the Pennsylvania this morning.

Engineer and Mrs. John Hanson and children have gone to a lake in central Michigan to spend a week or two. Engineer Hanson is employed on the G. R. & I. road.

Herman G. Miller, a clerk in the Wabash freight office, had two small tumors removed from his neck yesterday, the operation being performed by the company's surgeon, Dr. C. F. Kaadt.

Four mammoth oil burning locomotives, built at the Baldwin Locomotive works for the Chicago, Rock Island and Pacific company, passed through the city this morning, over the Pennsylvania, for Chicago.

At the recent meeting of Friendship lodge, No. 70 Machinists union it added three names to its membership roll and received a half-dozen applications for membership. The union is growing in numbers and strength.

The local Wabash officials have been advised that a number of the Concordia students will go to Detroit over that line Friday. To accommodate the students the company has ordered a special car sent here for use on that day.

Six men were given employment and six resigned their positions at the Wabash shops this morning. Boilermaker Thomas Sutphen and Helpers Z. A. Kinsen, W. Wright, Glen Rondot, J. V. McMullen, jr., and J. C. Collis took employment at the shops. A machinist who recently took employment there was transferred to Delray this morning.

"APOSTLES" WILL PRECEDE SPECIAL

Hoosier Democrats Ahead of Marshall-for-President Train.

WILL PAVE THE WAY

Indianapolis, June 19.—Preceding the Governor Marshall special for Baltimore, a chartered car, carrying "twelve apostles of Indiana democracy," as Jerry C. Foley calls them, will depart Saturday evening at 6:10 o'clock for the scene of the democratic national convention. The special car will be attached to a Pennsylvania fast train and will reach Baltimore at 12:05 o'clock noon Sunday.

The "twelve apostles" who are to espouse the cause of the "strongest man" in the democratic race for nomination are: James L. Keach, commission merchant; Frank Straub, former member of the board of public safety; Mr. Foley, Joseph P. Turk, county recorder; John J. Keegan, member Indiana legislature; William M. Fogarty, president Fidelity Trust company and former county chairman; John F. Darmody, manufacturer; John D. (Cockey or Jack) Shea, Hubert Riley, former candidate for sheriff; James E. Troy, member city council; Albert F. Zearing, former secretary to Thomas Taggart, and William H. Holl, contractor and First ward politician.

"We call ourselves the twelve apostles—favoring reform and purity in elections," smiled Mr. Foley, and added that en route the apostles of Hoosier democracy may discuss possible candidates for mayor of Indianapolis.

Officials of the Marshall-for-President club have received the giant banner which is to head the Indiana delegation to the convention. The banner is made of extremely heavy white silk with a blue field at the top, on which is a painting the Indiana state seal. "Marshall-for-President Club of Indiana" is the legend of the banner. A gold eagle surmounts the banner.

DOG AIDS DYING MASTER.

Awakens Members of Family After Man Cuts His Throat.

New York, June 19.—Alphonse Moeckel, of No. 736 St. John's place, Brooklyn, is alive today in the Swedish hospital after having slashed his throat with a razor, because of the intelligence of a mongrel dog he rescued from a crowd of boys a month ago. Mrs. Moeckel was awakened by the dog, which jumped upon her bed, whining piteously. Noticing that her husband was not by her side, Mrs. Moeckel got up. The dog ran barking into the bathroom and Mrs. Moeckel followed. She found her husband lying unconscious on the floor with a deep wound in his throat.

Dr. Bance, of the Swedish hospital, said Moeckel would have died if another half hour had elapsed before he had attention.

Busy Whirl at Chicago is Real Sideshow of Humanity.

A GLANCE AT A FEW

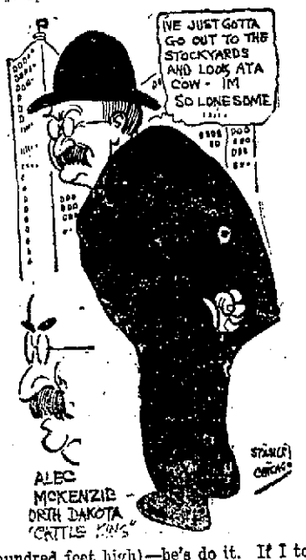
By Oliver P. Newman.

Chicago, June 19.—No national republican convention could be properly conducted without old Alec McKenzie, of North Dakota, railroad contractor, multimillionaire and boss of the Red River country. Consequently, the colonel drifted in early, to lend his sage counsel to the steam roller captains. Unfortunately, the colonel is not a delegate this year—because of a little uprising in North Dakota on March 19 last—but a man don't have to be a delegate to be of use.

A good story always follows close on the trail of the colonel, and this is the one they're telling this time:

In Bismarck lived two men—Patterson and Jewell. Both were McKenzie followers, but in a show-down McKenzie always sided with Patterson. A friend once asked him why, and the colonel spoke thusly:

"They're both fine boys and I love them, but I have to give Pat the best of it sometimes. It I'd tell Patterson to go jump off the viaduct—(it's over a



hundred feet high)—he's do it. If I told Jewell to jump off the viaduct he'd do it—but he'd want to know why."

* * *

Senator Borah, of the waving black locks and the bulldog jaw, strolled out of the lobby of the Congress hotel the other day. The minute he hit the sunlight, "snap, snap, snap," went a dozen cameras.

Borah smiled and stood for it—seemed to like it, in fact, just as if he really had had time, during a very busy career, to get hep to the fact that it doesn't hurt a public man to have his picture printed in a newspaper.

When the process was completed a photographer rushed up to the senator, who was resuming his stroll down Michigan avenue.

"What's the name?" queried the camera shooter, without a flicker of embarrassment, flashing a pad and pencil—which no true reporter would ever be caught exposing.

"Borah," replied the senator, slightly surprised.

"Where from?"

"Idaho." (Greater surprise.)

"What's your initials?"

"William E." (Intense astonishment.)

"What are you?"

"A United States senator." (Incredulity.)

"Much obliged."

And Borah, you know, is prominently "mentioned" as a dark horse candidate for president!

* * *

You don't have to ask a conventionite where he's from. Lots of people do it, but it a pure waste of time. If you watch him shake hands you can tell in a minute.

(And incidentally, this convention powwow is the greatest old hand-shaking fest you ever saw. It's got any Methodist camp meeting outshook a mile and a half.)

Take Sen. Henry Cabot Lodge, for instance. He is approached by a friend. He bows very, very formally, extends his hand slowly, grasps his friend lightly by the mit, gives a slight pressure of the fingers and says politely: "How do you do? I'm glad to see you."

That's the New England greeting.

Vastly different is the system used by George A. Knight, national committeeman from California, ranch owner and millionaire lawyer. Knight sees an old friend across the lobby, hoists his arm in the air, lets out a "Hey, there, Bill," and rushes half way across the room, where he swings onto Bill's hand like Christy Mathewson letting go of an inshoot, pumps it up and down for five minutes and demands to know where the he—— he's been this long time.

That's the western style—and they're all doing it.

Now observe the performance of the dignified but loveable, white-haired Pearl Wight, national committeeman from Louisiana. When Pearl Wight meets a long-lost friend his wide-brimmed black felt hat comes off, his ramrod back bends to a low bow, his hand goes straight out with frank good will, he grips long-lost friend firmly by his hand, throws his other arm over long lost friend's shoulder, gives him an affectionate little hug and says: "Ah'm right glad to see you all; how's you been, an' how's the misses?"

That's the way the southerners do it.

* * *

The lobby of the Blackstone hotel, which lives up to the famous epigram of the satirist who pronounced American hostelries as "a cross between ancient North-German-Lloyd and modern Pullman," was reposing in its awful, dignified silence the other afternoon while fireworks were popping in other parts of Chicago, when a bellboy ambled in and out among the marble corridors, shouting: "Mr. W. J. Burns! Mr. W. J. Burns! Mr. W. J. Burns!"

By actual count, fourteen men grabbed their hats and beat it. Three of them were United States senators, two were Taft delegates and one was a member of the Illinois legislature.

Gaston Bailhe, violin instructor at the European School of Music, is at Hope hospital, where this morning he underwent an operation for appendicitis.

COLONEL KEEPS EAR AT 'PHONE

Roosevelt Directs Fight by 'Phone from His Hotel Room.

CONFERS WITH AIDES

Chicago, June 19.—Colonel Roosevelt went into conference at 9:30 a. m. with Senator Borah, George B. Cortelyou, Governor Johnson, of California; Gifford Pinchot, William Flinn and other leaders.

The colonel will continue today to keep in touch with his forces in the convention hall by means of telephones in his hotel apartments.

"I'm a better warrior than a prophet," said Colonel Roosevelt, when he was asked his opinion of the outcome of the convention. That was all he would say last night.

Mr. Roosevelt directed his own battle in the convention hall over a telephone wire. Hidden away in a room in his hotel, he spent most of the time with a receiver at his ear, listening to reports of his lieutenants and issuing orders in person.

The wire over which Colonel Roosevelt gave his directions was specially installed for the convention and had no connection with any switchboard. Roosevelt leaders said after they had seen him that he was pleased with the showing made on the first day.

It was explained by an old friend of the colonel that the secret of his ability to endure hard work is that he does not worry. During a few spare minutes which he was able to have he told with delight a story to the effect that when he went to Africa, Wall street was hoping that "every lion would do its duty."

WEIGH YOURSELF BEFORE USING

Weigh yourself before commencing to use Samose, the great flesh-forming food. The wonderful sale on this preparation since first introduced in Fort Wayne and the remarkable results following its use have made Meyer Bros. Co. such enthusiastic believers in the great value of Samose that they give their personal guarantee to refund the money if Samose will not make thin people fat and restore strength and health to those who use it.

This is a strong guarantee, but Meyer Bros. Co. have seen so many of their customers who a few weeks ago looked like walking skeletons become plump and well, through the use of Samose, that they feel they cannot say too much to induce people to try it.

This marvelous flesh-forming food is assimilated as soon as it is taken into the stomach, makes good rich blood, tones up the weakened system, helps to assimilate the food and makes the user plump, well and rosy.

HOOSIERS ARE IN LIMELIGHT

Indiana Delegation at Chicago is Center of Scene.

NEW WAS ON THE JOB

Chicago, June 19.—Indiana was right in the center of the spotlight at the national convention yesterday. The importance of the state in the deliberations of this memorable political assemblage was strikingly typified by the place assigned to the Hoosier delegation on the convention floor.

The Indiana delegates sit in the position of honor that is usually assigned to the Hoosier state in national conventions. They are right in front of the stage, alongside the delegates from the great Empire state, thus once more calling attention to the old adage that "as go Indiana and New York, so goes the nation." Harry S. New has taken care of Indiana handsomely and no more so in any respect than in the splendid and advantageous seating arrangement for the Indiana delegates.

Brotherly harmony and fraternal comradeship characterized the affiliation of the rival Indiana Taft and Roosevelt delegates on the opening day of the convention. There was no outward evidence of bad blood. Of course there is a dolorous possibility that they may fight like the mischief later on, for anything is to be expected in this convention, but so far the relations are pleasant and neighborly.

New's Move Sanctioned.

This spirit was manifested when, upon the arrival of the delegation at the convention hall, Harry S. New, the spokesman and chairman, turning to his twenty-nine associates from Indiana, said:

"I understand that on all preliminary motions I am to cast the vote of the Indiana delegation twenty to ten. Is that satisfactory?"

The Roosevelt men on the delegation raised no objection to this division of the vote. E. C. Toner, of Anderson, one of their leaders, said it was fair and satisfactory.

The Indiana delegates were up early and Indiana headquarters swarmed with Hoosiers during the forenoon. At 11 o'clock the Indiana members of the convention met at the state headquarters and marched in double file, with former Senator Hemenway and Lew Shank at the head of the column, to the convention hall. Roosevelt men fell in with Taft men and hilarious and jovial remarks were exchanged on the way. At the hall former Vice President Fairbanks, who had preceded the delegation, was waiting.

Fairbanks Is Cheered.

The Hoosiers, with Mr. Fairbanks at their head, were the first of the state delegations to enter the hall in a body. When the tall form of Mr. Fairbanks appeared at the right entrance there was the initial outburst of applause. The delegates, regardless of factional alignment, tested out together their throats. The test was satisfactory and was prophetic of a great deal more lung exercise later as other celebrities entered the great hall.

Mr. Fairbanks, tall, stately, dignified, walked down the aisle, with former Senator Hemenway directly behind him, bowing his acknowledgments of the generous greeting. The other Indiana delegates followed in single file.

Capt. William E. English, delegate from Indiana, was sick and in a doctor's care Monday night and was uncertain until the eleventh hour yesterday that he would be able to attend the convention. The venerable W. R. McKeen occupied a delegate's place in the convention and watched the proceedings with keen zest. A canvass of the delegation showed all of the members present.

At the side of James E. Watson, delegate at large and Taft floor leader, was his faithful friend, "Jake" Finkelstein, of Terre Haute. "Jake" has not got far away from Watson since the Indiana delegates arrived in Chicago. Two of the conspicuous floor figures in the aisle as the fluttering, chattering convention-goers awaited the falling of the gavel, were Watson and Finkelstein.

Thayer Gets Send-Off.

A testimonial to the popularity of Col. E. P. Thayer, of Greenfield, assistant sergeant-at-arms, was one of the interesting incidents before the gavel dropped. Colonel Thayer had occasion to step to the front of the stage to superintend some arrangements. At that instant pandemonium broke loose in the Indiana delegation. The other delegates looked bewildered, not knowing what it was all about, until cries of "Hurrah for Thayer," "Indiana is for Thayer," rent the air. Then the remainder of the convention joined in the applause and Colonel Thayer got a great send-off.

Both Captain New and Colonel Thayer have made themselves more solid, if possible, with Indianians by the generous bestowal of commissions as assistant sergeants-at-arms to Hoosiers. There probably never was a convention with a larger and more imposing array of these minions of peace and order. They fairly fell over each other and clogged the aisles. Since Indiana has more than a liberal share of these badged supernumeraries there is no "kick coming" from the Hoosier state, although they make breathing space a little shy.

Badges Are Late.

The Indiana badges showed up today, but too late to be distributed until tomorrow. There are about 1,500 of them and the design is the most ornate and attractive of all of the state badges. The Hoosier badges have been expected for a week and their failure to come has almost exhausted the patience of the waiting Hoosiers, who were impatient to be decorated.

Captain English's physical disabilities quickly disappeared as the convention warmed up and he soon developed into the role of peacemaker for the Indiana Taft delegates, in leading the applause which broke loose at intervals when the Taft orators scored a point. This he did by standing on a chair and swinging his panama hat. E. C. Toner, of Anderson, led the applause for the Indiana Roosevelt delegates.

As an evidence of the good feeling that exists between the Indiana Taft and Roosevelt delegates, it developed that the loud "holler" which came from Horace Stilwell yesterday complaining of the election of James P. Goodrich as national committeeman, has found no responsive echo among the Roosevelt men here. Charles H. Campbell, Indiana Roosevelt manager, said he had no criticism to make of the action of the delegates in electing Goodrich before the permanent roll of the convention was made up.

"I advised my friends on the delegation to vote for Goodrich," said Campbell. "He is all right."

Votes as Per Schedule.

All eyes were on the Indiana delegation when the vote for temporary chairman was taken. The delegation divided exactly on Taft and Roosevelt lines, giving twenty votes for Elihu Root, the Taft candidate for chairman, and ten for Governor McGovern, the Roosevelt candidate. The lineup was as follows:

For Root—Harry S. New, Charles W. Fairbanks, James E. Watson, Joseph G. Oliver, James A. Hemenway, Charles F. Heilman, David R. Scott, Jerry Wooden, George W. Applegate, Cyrus M. Crim, Oscar H. Montgomery, Web Woodfill, William R. McKeen, Silas A. Hays, William E. English, Samuel Lewis Shank, William H. Wood, Percy A. Parry, Clement Studebaker and Maurice Fox.

For McGovern—Enos Porter, Edward C. Toner, William Holton Dye, William Endicott, David E. Harris, John P. Kenower, R. H. Rerick, Henry Brown, Thomas C. Bryson and Harold Hobbs.

It had been rumored that Enos Porter might vote for Root and Percy A. Parry for McGovern, but both stood pat.

REDEEMS HIS PROPERTY.

Damage Case in Federal Court Here Is Finally Settled.

Samuel K. Ruick, of Lagrange, whose property was sold December 5, 1911, by United States Deputy Clerk T. J. Logan, on foreclosure of a mortgage, has redeemed his dwelling and adjoining property by paying $1,815, the sale price, and 8 per cent interest. A check for the amount was received this morning by Mr. Logan. The property of Mr. Ruick was purchased by D. M. Dwyer.

Mr. Logan also received a check for $1,416.25 this morning, which will be sent to G. M. Foreman, for settlement in the damage case against G. W. Sauers & Sons, of Huntington. The latter firm sold Mr. Foreman a vicious stallion, which severely injured him. The personal damage suit was tried in the local federal court.

STUNT CAUSES TWO DEATHS.

New York, June 9.—Ten-year-old Sammy Boles climbed up a forty-foot high steel tower which supports electric wires at Bretwood, Long Island, late yesterday as a "stunt" to show off before his comrades. After reaching the top his applauding playmates saw him grasp one of the wires. In an instant the current had twisted his little body over on to the entire string of wires and his clothes were set on fire. George Williams, a farm hand who was working near by, climbed up and tried to pull the lad down by his dangling foot. Williams also received the electrical current and both fell to the ground dead.

PRESIDENT SIGNS EIGHT-HOUR BILL

But Exempts Panama Canal Contracts Up to January 1, 1915.

MAY HALT MANEUVER

Washington, June 19.—President Taft today signed the act of congress limiting to eight hours the daily service of laborers and mechanics employed on government work, and immediately afterward issued an executive order exempting any contracts in connection with the Panama canal until January 1, 1915. The canal will be finished before that date, according to the expectation of the engineers.

May Prevent Maneuvers.

President Taft's veto of the army appropriation bill may prevent this year's maneuvers camps of the regular army and the national guard. In most of the states the camps were ordered for before the middle of July. The bill vetoed by the president contained an appropriation of $1,350,000 to pay in part the expenses of the encampments. Today an effort was begun to induce the president to forward to the congress a special message urging that the appropriation for the encampments be used so that it may not be necessary to postpone them.

UPHOLDS RECORD OF TAFT REGIME

Taft in Keynote Address Urges It as Deserving Support.

CROWD FLOCKED OUT

Chicago, June 19.—Temporary Chairman Root, in his keynote speech before the convention last evening, held up the record of the Taft administration as worthy of continued endorsement and as justification for the president's renomination.

Immediately after the vote, by which he was elected, was announced, Senator Root appeared on the platform. The crowd yelled itself hoarse, while the band swung into a lively tune. Sergeant-at-arms Stone had the utmost difficulty in restoring order and the cheering broke out anew as Chairman Rosewater, after a brief speech, which could not be heard, handed the big gavel to Root.

Cat Calls and Jeers.

Flinn again demanded attention from his place in the Pennsylvania section, but was disregarded. A minute after Senator Root stepped out to the front of the platform to begin his speech a storm of cat calls and jeers broke.

"Haw, haw, haw," came in loud tones from the floor and gallery, as he referred to his "appreciation of the honor" accorded.

Senator Root prefaced his prepared speech by a few extemporaneous remarks.

"I thank you," he said, "and I beg you to believe that I deeply appreciate this expression of your confidence."

"Haw, haw, haw," came a guffaw from the floor. Cries from members of the Pennsylvania delegation brought a group of policemen flying in that direction.

Sergeant-at-arms Stone called upon the chief of police to restore order in the front rank of the Pennsylvania delegation, but Richard R. Quay, sitting in the front, put his hand to his mouth and called out, "receiver of stolen goods," while officers about him called for order.

Began to Move Out.

Root had scarcely begun his address before hundreds of spectators on the floor and in the galleries began to move out of the hall, noisily and hurriedly.

Senator Root suspended his speech and asked Sergeant-at-arms Stone to ask those who wished to leave to go out at once.

"As soon as those desiring to leave have gone, the senator will continue," shouted Stone through the megaphone, and the spectators began to crowd out. Root, scowling, resumed his place at the table. Senator Root's voice could not be heard half way down the hall

As the senator sat there "Bull" Flinn, with a cigar stub in the corner of his mouth and his straw hat jammed down on his head, climbed over the stage railing. He stepped up to Senator Root, shook hands and conferred with him for several minutes, leaving just as Root resumed speaking.

In Sharp Contrast.

When Mr. Root resumed the entire rear part of the floor and gallery was empty, and those who remained to hear him crowded to the front and the empty seats were emphasized by the sharpness of the contrast.

Mr. Root made his speech to a quiet and attentive audience. Here and there he elicited a ripple of applause, particularly when he touched upon the trust prosecutions of the Taft administration. Once a photographer set off a flashlight to catch the temporary chairman in his speaking attitude and the boom of the chemical made every one jump, so quiet was the hall.

Senator Root's tariff comment evoked a ripple of cheers, predicting a republican success in the fall election, he was given a band of applause. "We need not despair of American institutions," he said, and the delegates and the meager crowd in the galleries cheered the sentiment roundly.

Mr. Root's Address.

Mr. Root spoke in part as follows:

"Gentlemen of the Convention: Believe that I appreciate this expression of confidence. I wish I were more competent for the service you require of me.

"The struggle for leadership in the republican party which has so long engrossed the attention and excited the feelings of its members is about to be determined by the selection of a candidate. The varying claims of opinion for recognition as the political creed of the party are about to be settled by the adoption of a platform.

"The supreme council of the party in this great national convention, representing every state and territory in due proportion according to rules long since established, is about to appeal to the American people for a continuance of the power of government which the party has exercised with but brief interruptions for more than half a century, and that appeal is to be based upon the soundness of the principles approved and the qualities of the candidates selected by the convention.

Test of Party's Fitness.

"In the performance of this duty by the convention, and in the acceptance of its conclusions by republicans, is to be applied the ever-recurring test of a party's fitness to govern, its experience and its formative and controlling power of organization. And these depend upon the willingness of the members of the party to subordinate their varying individual opinions and postpone the matters of differences between them in order that they may act in unison upon the great questions wherein they agree; upon their willingness and capacity to thrust aside the disappointment which some of them must always feel in failing to secure success for the candidates of their preferences; upon the loyalty of party members to the party itself, to the great organization whose agency in government they believe to be for the best interests of the nation, and for whose continuance in power their love of country constrains them to labor.

Pleads for Loyalty.

"Without these things there can be no party worthy of the name. Without them, party organization is a rope of sand, party organization is an ineffective form, party responsibility disappears and with it disappears the right to public confidence.

"Without organized parties having these qualities of coherence and loyalty, free popular government becomes a confused and continual conflict between a vast multitude of individual opinions, individual interests, individual attractions and repulsions from which effective government can emerge only by answering to the universal law of necessary organization and again forming parties.

"Throughout our party's history in each presidential election we have gone to the American people with the confident and just assertion that the republican party is not a mere fortuitous collection of individuals, but is a coherent and living force as an organization. It is effective, responsible, worthy of confidence, competent to govern."

Children Play Part in Overcoming Estrangement.

Kansas City, June 19.—John P. Cudahy, the packer, and his wife, who became estranged when Cudahy attacked Jere S. Lillis, the bank president, at the former's home here, slashing him with a knife and disfiguring him for life, announced today that they had become reconciled.

The four children of the couple played an important part in the reconciliation and the circuit court here will be asked to return them to their parents. The children were placed in charge of their grandmother, Mrs. Michael Cudahy, of Chicago, who placed them in a school in New Jersey.

Harmless Way to Darken the Hair

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not now the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is loosing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cents bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

SIZE UP CHANCES ON GOVERNORSHIP

Hoosier Aspirants Busy at Indiana Quarters in Chicago.

SHANK IS AMONG 'EM

Chicago, June 19.—It would be exceedingly difficult to throw a stone into the crowd at Indiana headquarters in the Congress hotel without hitting an aspirant for the governorship.

This is the open season for gubernatorial campaigning and the candidates are here with their brightest smiles and longest, heartiest handshakes. They shower exuberant greetings upon all who come within operating range.

Barring George Ade, who is still a little groggy from having slept in the henhouse at his farm, to which he was driven through sheer force of numbers of the Chicago-bound Hoosier politicians who took possession of his house and the sleeping appurtenances thereof, the men whose names have been linked with the Indiana governorship are in a happy mood. George says he does not expect to smile again until all danger of developing a case of chicken lice is passed.

Shank Cuts Wide Swath.

Mayor Lew Shank, of Indianapolis, spends his time at Indiana headquarters and cuts a wide swath with his comprehensive handshake. He has no objections to letting people know that he wants to be governor.

"Are you for me, boys?" he asks in his most dulcet tones as he gathers three or four within his encircling arms.

"You bet I'm for you, Lew, unless Jim Watson runs," is a frequent response, to which Lew invariably replies that if Jim concludes to run, he (Shank) will pull out of the race quicker than a cow can shake its tail, which would make a considerable record for velocity.

"Jim Watson spent his money and his time running for governor four years ago, and is entitled to the nomination again if he want it," says Shank.

The mayor's outburst of magnanimity as regards Watson is not going to make a deep, sacrificial cut, however, as Jim himself is here to make a vehement personal denial of the idea that he ever, in his wildest flights of fancy, thinks of being a candidate for Governor again.

Taylor in Limelight.

Billy Taylor, of Indianapolis, is Johnny-on-the-spot, exuding benevolence from every pore and shaking hands at least six times a day with every Indiana man, woman and child here. He is one of the most active of the gubernatorial aspirants.

Senator Wood, of Lafayette, also is pretty busy training the young gubernatorial idea how to shoot. D. W. Henry, of Terre Haute, beams on the politicians like a radiant sunburst. He has been inoculated by the gubernatorial virus, but has not yet broken out into an open rash.

Stilwell Bides His Time.

Horace Stilwell, of Anderson, is the only one of those known to harbor gubernatorial aspirations, or suspected of the same, who is not here for the obvious purpose of making hay. To speak a little more accurately the beaming Stilwell is here to make hay, but it is Theodore Roosevelt hay that he has designs on making, and not Horace Stilwell hay.

Stilwell is putting his whole soul into the contest for Roosevelt and is considerably annoyed because his gubernatorial boom keeps butting into the way.

"Nine times out of ten," said he, "when I begin talking up Roosevelt stock to an Indiana acquaintance he responds by slapping me on the back and saying:

"Anyhow you can bet your life I'm for you for governor, Horace.

"Of course, I am glad my friends are good enough to think of men in connection with the governorship, but I am getting suspicious. I am afraid the boys are kidding me."

Hart Calls on Colonel.

Capt. W. H. Hart, of Indianapolis, former auditor of state, was one of Col. Roosevelt's callers, and thereby hangs a tale. Years ago Col. Roosevelt and Capt. Hart were members of the administrative family at Washington together, the former as civil service commissioner and the latter as third auditor of the treasury.

Capt. Hart made a few sudden and expert shifts in the personnel of his office force, which seemed to Roosevelt to be prompted by a desire to keep some of "the boys" to the pie counter, in rank and contemptuous violation of the spirit of civil service, and he landed on Capt. Hart like a ton of brick. That was their first introduction to each other and it was a stormy one.

Since then Capt. Hart has been voting for Roosevelt every time he has had a chance, and if the national convention this week should nominate Roosevelt for president the captain will indulge no regrets.

Thayer Not Alarmed.

The talk of fist-fighting, shooting and all that, does not disturb the equanimity of Col. E. P. Thayer, of Greenfield, Ind., assistant sergeant-at-arms and active police officer in charge of the national convention. Col. Thayer is a superb military man and tactician and does not get stampeded easily. He does not anticipate any serious trouble of any character at the convention. The most he looks for is a bedlam of noise and a roaring Niagara of cheers.

Col. Thayer has issued printed instructions that are highly interesting to the 500 or more deputy sergeants-at-arms. Under the instructions the convention goers can cheer their heads off, if they like. The lid will be off and there will be no limit to the noise. There will be no lung speedometers around this convention.

In case anybody should take a notion to start real trouble, however, there will be 250 policemen in uniforms and fifty in plain clothes in and around the convention hall to see that the majesty of the law is upheld. At the Garrison street station, a short distance away, there will be 250 reserves ready for immediate action.

English There in '96.

Capt. W. E. English was a delegate from the Indianapolis district to the Chicago convention of 1896 that burst the democratic party wide open. A coincidence finds him here as a delegate from the Indianapolis district to the Chicago convention of 1912, which also gives promise of some very strenuous possibilities.

"I suppose you are going to burst the republican party next, dear," said Mrs. English, and the captain is not making any promises as to what will happen.

BABE FINDS HER FATHER SUICIDE

Lifeless Body of Marion Man Discovered by Little One.

HAD CUT HIS THROAT

Marion, Ind., June 19.—John W. Nelson, 42, committed suicide at his home near this city yesterday by cutting his throat with a razor and stabbing himself in the breast with a pocket knife. His dead body was discovered by Pauline Nelson, a 4-year-old daughter. Mrs. Nelson and her daughter were absent from home when the suicide occurred and on returning the little daughter ran ahead to greet her father, who was lying in a pool of blood.

USED NECKTIE AS NOOSE.

Anderson, Ind., June 19.—With one end of a necktie looped securely about his neck and the other end attached to a bedpost, John Garrison, 55, ended his life at his home here yesterday. Mrs. Garrison heard the noise of a falling body in her husband's room shortly before 5 o'clock and on entering the room found her husband lying on the floor dead.

ODD FARRIAGE CEREMONY.

Massachusetts Couple Are United by Socialist Ritual.

Cambridge, Mass., June 19.—An unusual marriage ceremony was used here recently when Miss Jessie Holliday, daughter of Henry Holliday, of Harrow-on-the-Hill, London, and Edmund T. Dana, a grandson of Henry W. Longfellow, were united by the socialist ritual, which they arranged themselves. The marriage vows were read to the couple by Edmund M. Parker, a lawyer and justice of the peace. Each expressed to the justice a desire to live with the other, an intention to help and regard the other, and to bring up any children born to them to the best of their ability and for the welfare of the human race. The two then exchanged vows, the bridegroom expressing the hope so to live that his wife might never regret her choice; the bride said she hoped to be a true comrade and helpmeet. The justice then pronounced them husband and wife.

BRUNNER RODE TO POLICE STATION

Met Accommodating Man on Street Who Took Him Into His Buggy.

HELD OVER A DAY

Just after Calvin Bruner had lost control of his jag on Washington boulevard this morning, long enough for an automobile to scrape a patch of cuticle off his leg, and had narrowly escaped going under the wheels, he met an affable stranger who asked him to take a buggy ride, and he was still elated over his good luck when he pulled up at a large stone building and was placed in charge of a couple of uniformed gentlemen who gave hi ma seat in a chair next to as black a piece of femininity as has ever graced prisoners' row in the city court.

The affable stranger was Humane Officer Louis C. Schlaudroff, who was on his way to police station and who feared that if Bruner were left to the mercy of his cargo of liquor that he would not be as lucky with the next automobile that crossed his path, so he was stowed away until tomorrow morning, when he will answer a charge of public intoxication.

Boughers' Case Continued.

Walter Boughers was held under a charge of grand larceny until June 22 and released on bond. It is charged that he stole $91 from Ernest G. Reinking, who was rooming at the Boughers home, 1530 East Wayne street. He is twenty years of age and stole the money, it is charged, from Reinking's trunk in sums ranging from $1 to $20, and spent it in pool rooms and in having a good time. The affidavit was filed against him in the name of George Boughers, although he gave the name of Walter at the time of the arrest. Detective Pappert made the arrest after he had been working on the case several days.

Price to Circuit Court.

Merit A. Price was held to the circuit court on a charge of stealing a bicycle from Edward H. Jacobs. It is understood that other affidavits will be filed against him in an effort to send him to the reformatory. He had no trouble disposing of his stolen property to the second hand dealers of the city.

Watson to Support Child.

At the close of the trial of William D. Watson, charged with neglecting his children, the court ordered him to pay $10 a month and he agreed to do it. The father and mother are divorced and both have married again, and the charge is that he is giving all his money to his new family.

Negroes Plead Guilty.

Alice Clark and Maud Johnson, two negroes charged with stealing $5.90 from Wilson Steele, plead guilty to charges of petit larceny and their cases were taken under advisement until tomorrow morning.

Judge Mungovan was advised not long ago that a law provides that where women are sentenced to more than thirty days in prison they must go to the industrial school at Indianapolis, and he reserved his verdict to look up the law.

Held for Investigation.

Wesley Saylor and Clyde Rush were held on charges of public intoxication for investigation and their bonds placed at $500. Detective Sergeant Pappert arreste dthem and he says he has information to the effect that they helped to rob George Thomas on Monday of $91.

Mary Harris, released a few days ago on her promise to quit drinking, was picked up again and sent to jail for a week on a continuance.

"I PREFER TO BE SHOT."

Austrian Murderer Chooses Method of Expiating Crime.

Reno, June 19.—For the first time in the criminal history of Nevada a man will be shot to death in accordance with the law of the state on June 23. Under the new criminal code, passed by the last legislature, any condemned murderer is given the privilege of choosing the method by which he is to be put to death, as between hanging, heretofore the one and only method provided by law, and shooting.

Andrew Mircovitch, an Austrian, of Tonopah, was given this choice as a result of his conviction of the murder of John Gregory, related to wealthy residents of this city. When arraigned for sentence he was asked by the court which he preferred, and he replied:

"I prefer to be shot."

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., June 19.—Better weather weakened wheat. September started at $1.03¼@1.03½ and inclined to the under level named.
A recovery followed, but failed to hold. Later, however, rumors of export sales led to a fresh upturn. The close was firm with September at $1.03¾, exactly the same as last night.
In the corn crowd the only apparent demand was from shorts. September opened at 70⅝c.
Wheat strength brought about a decided rally in the last hour. The close was firm at 71¾ for September, a net gain of ½@⅝c.
Oats developed a heavy tone in sympathy with other grain. September started at 40c to 40⅛c and steadied at 40@40⅛c.
A lighter run of hogs here and west than had been expected strengthened provisions. First sales with September delivery were $19.00 to $19.10 for pork, $11.17½ for lard and $10.72½ for ribs.

STOCKS AND BONDS.

The Day on Wall Street.

New York, June 19.—Trading was dull, with nominal changes at the opening of today's stock market. Copper issues were fairly active and strong, reflecting the further advance in the price of the metal.
The market became moderately active and decidedly strong soon after the opening with gains of a point or more in the coal shares, New York Central and American Can.
Coal shares, which were under pressure yesterday were features of strength, as were other prominent issues, including New York Central and Chesapeake & Ohio. Wabash common and preferred sold down to new low records. Bonds were steady.
The market closed firm. Amalgamated Copper rose sharply in the last hour, presumably in connection with reports of another advance in copper metal, and the rest of the market hardened slightly.

Final arrangements for the formal dedication of Foster park on July 4 will be made at a meeting of the general committee in charge of arrangements tonight at the Commercial club.

BUNNY BEAT THE MOTOR CAR

Rabbit Ran So Fast the Chauffeur Had to Speed to Keep Him in Sight.

The scene was on the road to Point Place. Illuminations were furnished by the moon and stars. Besides the rabbit and the auto there were one man and two girls, also a chauffeur.
The big automobile was speeding along the highway, sending its white light ahead, when suddenly right across the path of the rays from the head lamps shot a young rabbit. The chauffeur slackened speed, hating to hurt the little creature, and then the rabbit hopped back into the center of the road again, gave one look into the blinding glare of the lamps and started the race.
Straight down the center of the smooth, white highway he shot on ahead of the car, and the chauffeur speeded up a bit just to see how fast the race was going to be, but he could not catch the rabbit, not by ten feet. That little critter's feet went so fast there did not seem to be any there, and just a speck where the long ears bobbed with the motion of his little body and a brown blur of hair.
And still he ran, on and on, keeping his distance ahead of the big machine as if the light had hypnotized him and he could not stop, while behind in the car big, lazy pursuers laughed and watched and begged the chauffeur not to run him down. There was no such chance.
The rabbit was too quick. When he was tired of the sport he hopped to one side of the road as the car went by, tipped up his tiny head and winked out of one pink eye as he looked at the speeder and its occupants with a quizzical curve of his little mouth.—Toledo Blade.

QUEER THINGS ABOUT PAIN

Patient May Feel It in Limb That Has Been Amputated, or in Wrong Place.

Pain sometimes behaves in a curious fashion. There was a soldier in London, after the Boer war, who complained of excruciating neuralgic pains in his right foot. This very much amused his friends, for he had lost his right leg.
The explanation was that the pain happened to be in the trunks of those nerves, which had sent branches to the foot.
Sometimes a patient comes to a doctor complaining of pain in the knee, and he is greatly surprised when the doctor tells him that the site of the affection is not the knee, but the hip. We are all familiar with the pain under the shoulder blade which comes from an afflicted liver.
The stomach, too, can produce pain in many parts of the body. A disordered stomach will give us pain as far away as the head, and, when one gets a cramp in his toe, it is often due to acidity of the stomach. Swallow a pinch of soda and the cramp will disappear.
An aching tooth will produce neuralgic pains in the face, and very often a violent pain at the back of the head is due to the faraway kidneys, which themselves may suffer no pain at the time.

Power of Vegetable Growth.

A tar macadam pavement stretching from the school of gunnery at Shoeburyness (Eng.) to the sea is at present in a state of violent if silent eruption. About a fortnight ago the surface became covered with what may be called "blisters," raised a little above the common level, which attracted much wondering attention.
From each of these, in a few days, a series of cracks appeared, extending themselves in rays from a center. Finally came up a broad, soft shoot, looking extremely well pleased with itself and its work, which proved to be so old and well known a friend as the thistle. At this moment there are hundreds of those bold intruders showing defiantly through the pavement, affording a most interesting illustration of the power of vegetable growth.

Mother's Chair.

Mother's chair had rocked the whole family. It made a creaking noise as it moved, but there was music in its sound. It was just high enough to allow us children to put our heads into her lap. That was the bank where we deposited all our hurts and worries. Oh, what a chair that was. . . . It was a very wakeful chair! In the sick day of children other chairs could not keep awake—it kept easily awake. That chair knew all the old lullabies, and all those wordless songs which mothers sing to their children. Songs in which all pity and compassion and sympathetic influences are combined. That old chair has stopped rocking for a good many years. It may be set up in the loft or garret, but it holds a queenly power yet.—T. DeWitt Talmage.

Clumsy Flatterer.

He was a flatterer, but a clumsy one. Noting that the girl of his heart possessed beautiful teeth that shone like ivory, he ventured to pass a compliment.
"Dearest," he whispered, leaning over the music rack, "your teeth are like piano keys."
Freezing him with an icy glare, she turned on her heel. "Sir, how dare you insult me?"
"Insult you?"
"Yes, insinuate that my teeth are as large as piano keys." And without another word she left the parlor, leaving him crestfallen and bewildered.

Attorney Amos E. Houk was at New Haven today on business. Mr. Houk is chairman of the Allen county republican central committee.

Pythian Sisters' social circle will meet with Mrs. Overmeyer at the corner of Harrison and Wayne streets, tomorrow afternoon. The assisting hostess will be Mrs. Case.
